ACCESSORIES FOR GLOBELYST

Globelyst meets all your requirements. Lightweight construction and CO₂ efficiency as well as effective and ergonomic use were always our focal point during development.

With original accessories from Sortimo, you design Globelyst completely according to your own requirements. Customised partitioning and divider sets for drawers or trays, storage pockets, lashing rails, work benches and much more, facilitate the best usage of your utility vehicle.

PROSAFE – SAFETY SERIES PRODUCTION

ProSafe is integrated as a standard in the load safety system from Sortimo.

The lashing belts and load safety nets can be hooked in uprights, frames, traverses and floor rails without difficulty. ProSafe makes load safety possible in no time at all.

Your benefits:

- ✓ You and your freight are safe on the road
- ✓ You preserve your material
- ✓ You save on time, weight and money

ProSafe bungee strap

The ProSafe bungee strap suits perfectly for the fixation of bulky goods in a vehicle.

CargoStopp ProSafe

The CargoStopp allows for reliable load safety on the vehicle safety floor. It is inserted into the ProSafe floor lashing point with its hook.

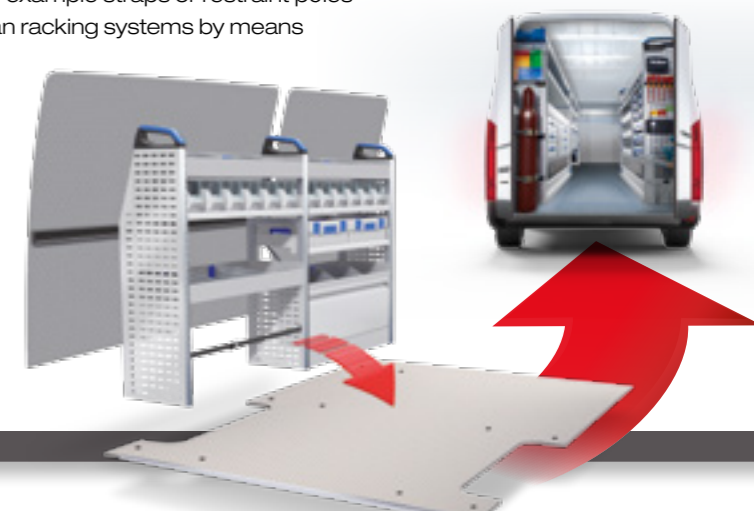

SOBOGRIP PROSAFE PROTECTIVE FLOOR

SECURE, TIME SAVING AND SIMPLE!

The SoboGrip ProSafe protective floor is an innovative and professional load securing concept from Sortimo which enables a completely flexible lashing of goods on the floor. That way, goods can be secured more quickly, more diversely and more efficiently than ever before. In addition the SoboGrip ProSafe floor is compatible with all ProSafe applications, such as for example straps or restraint poles and enables a quick and easy assembly of Sortimo van racking systems by means of preconfigured connection points.

The Sortimo SoboGrip ProSafe protective floor is the modular base load securing concept with

- ✓ highest safety standard,
- ✓ variable applicability,
- ✓ optimum efficiency for your workday!

LASHING RAILS

DIVIDERS

FOR DRAWERS

Dividers bring tidiness into both large and small drawers. Standard shelves can also be more efficiently subdivided. Available in sets, individually or as a small component insert.

④ **Slotted dividers** subdivide the drawers in width. Two drawer brackets are required each time for the fastening of slotted dividers **(have to be ordered separately)**.

The case clamp is easy to use, variable clamping mechanism for cases, boxes and containers of various sizes. It is fitted into the van racking solution. With the case clamp, even containers which were not originally designed for the Globelyst system can be integrated, transported and removed safely .

The ergonomic long components tray is manufactured from a new composite material and is best suited for the transport of long components.

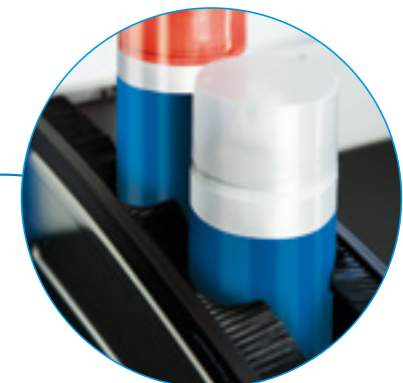

Due to the sliding mechanism, the new cover flap made from hard plastic opens towards the floor in a space saving way. Therefore, even bulky long components can be stored securely and effortlessly.

Composite long components tray

Suitable for the transport of long components inside the vehicle.
The Composite long components tray is available in various lengths up to 3 metres.

ACCESSORIES FOR THE ALUMINIUM PROTECTIVE PANEL SOWAAPP

The new **SowaApp wall cladding** not only protects your vehicle from scratches or damages, it also facilitates a simple fastening of hooks and extensive accessories for the storing of tools.

The moisture-resistant and robust wall cladding is precisely fitted to your vehicle and serves as a system cladding, for example above workbenches. The clever Sortimo system perforation allows the attachment of extensive accessories such as hooks, hose holders, storage pockets, i-BOXX holders, hooks for perforated panels and many more.

Thanks to the different **storage pockets** for inset boxes or the L-BOXX Mini, important small parts are immediately ready to hand.

VENTILATION SYSTEMS

In the case of transport of gas bottles, vehicle ventilation systems with free openings are mandatory. Sortimo provides a ventilation system which can be used for both upward and downward ventilation depending on the density of the gas being transported. Due to the aerodynamic design the fresh air flow rate demonstrates outstanding results which exceed the legal requirements substantially.

SAFE RFID

Leaving valuables in your vehicle is very often a risky undertaking. Sortimo has however the perfect solution at the ready: the **Safe RFID**, which integrates seamlessly into the van racking system. With this safe in your vehicle you will not have to worry anymore while working on the building site.

The sophisticated opening system with **RFID technology (radio-frequency identification)** enables quick opening by means of holding the key in front of the lock. Furthermore the key can be programmed with the transponder so that an allocation of more safes to the transponder is possible: flexible and safe!

The Safe RFID can be seamlessly integrated into the Sortimo van racking system.
Consequently valuables are safely stowed away in your vehicle. Opening and closing occurs by means of moving an RFID transponder into its proximity.
There are two preprogrammed transponders included with the lock.

TOPSYSTEM – FLEXIBLE LOAD SECURITY ON THE VEHICLE ROOF

ORIGINAL ACCESSORIES

Ladder lift rear

The ladder lift is suitable for the convenient transport of heavy ladders. Lifting and lashing of ladders is no longer required thanks to the hydraulic cylinder supported lift system. That way one and multi-part ladders can be conveniently handled from the ground. The ladder lift is available in two basic lengths, 2.5 and 3 meters.

Loading roller

The ideal aid for heavy or large transport goods. The loading roller helps to load and unload goods onto and off of the roof very conveniently.

It is available in all cross profile widths and is positioned in between the side rails.

ProSafe

ProSafe enables the integrated serial production in the TopSystem from Sortimo.

ProSafe lashing straps can be hooked into the cross members without any difficulty. Thereby the lashing straps could be used for the loading space as well as for the roof rack.

Cross members

Every TopSystem Cross member, whether the basic or the premium variation, allows a revenue load of 50 kilo / 110 lbs.

Side rail

The aluminium side rail serves the purpose of stability and integrates any amount of cross profiles.

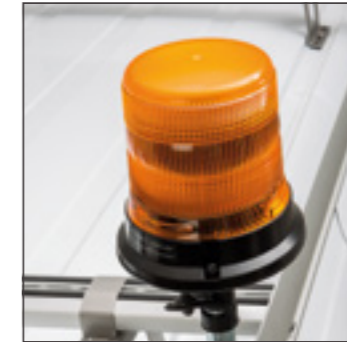

The company logo can be applied to the side rail.

Aluminium Transport tube

The perfect extension of the TopSystem. Can transport long goods dry and secure. The cover/endcap is lockable.

The aluminium transport tube is available in the basic lengths 2, 3 and 5 metres made of plastic.

Lighting systems

Warning lights for securing your work area are the perfect extension for your roof racking system. We provide a warning halogen beacon with plug socket, LES beacon yellow with plug socket and LED beacon yellow with magnetic base/socket.

Load stopper 150

The load stopper 150 consists of corrosion resistant stainless steel, therefore no coating is necessary. It can be used as a transport tube, as a load stopper from the side or even for securing a ladder. In addition it can be retrofitted onto the cross members and has a very good noise behaviour.

You find further information in the TopSystem brochure.

Please order our catalogue using the form on page 82 or download it: sortimo.com/catalogues.

ORIGINAL ACCESSORIES

REAR DOOR LADDERS

The rear door ladder from Sortimo enables a convenient climb upwards to load and unload goods to and from the roof rack and guarantees a maximum resilience of up to 100 kg.

The anti-slip steps are fixed on rounded hand rails. The ladders are suitable for vehicles with double doors, either with or without a rear window.

Operation:

- Rear bracket can be folded up when not in use.
- Both brackets are covered with rubber mats in order to prevent any damage to ladder or lift.
- The front bracket can be adjusted to the length of the ladder and keeps the ladder taut by means of a gas pressure spring.

SORTIMO ELECTRONIC ACCESSORIES

Sortimo offers a wide range of professional portable lamps, flood lamps and mounted lights in various versions to enable the best possible choice for you. In order to make your work day run even more smoothly, our electronic accessories can offer a wide variety of AC Inverters and plugs of all kinds.

BOSCH TOOLS

Thanks to the **cooperation with Bosch** we can offer our customers a mobile recharging unit for the blue electrical tool box.

Bosch has, in addition to the already well known Wireless Holster, developed a further practical accessory, which fits perfectly into the Sortimo system: the **Wireless Charging L-BOXX Bay**.

This holder is directly installed into the Sortimo van racking system or fastened vertically onto the vehicle wall. The Charging Bay is compatible with every common L-BOXX 136.

The L-BOXX locks into place in the bay and two rechargeable batteries start charging through the BOXX. A special insert for the L-BOXX 136 is simply needed in order to enable the charging. Electrical tools and reserve batteries are hereby always ready for use when you arrive at your place of operation.

Being mobile, flexible and organised – this is not always easy. Sortimo has found an elegant solution to

this problem. With Sortimo's products for the passenger compartment, your mobile office is always on hand.

THE AUTOMANAGER KEEPS EVERYTHING ORGANISED WHILE YOU'RE ON THE ROAD

Safely stored on the passenger seat and secured against theft, your mobile office is always with you when you are on the road.

The extending, swivelling notebook table and large inner compartment make it totally practical.

Automanager without power supply

AM OS

Ref. no. 601014453

Dim. (LxWxH): 580 x 300 x 410 mm

Weight: 7.4 kg

Automanager with swivelling notebook table and storage pockets for small items in the lid.

Automanager with power supply

AM

Ref. no. 601009565

Weight: 7.4 kg

Automanager with swivelling notebook table and storage pockets for small items in the lid.

The electrical connection happens by means of a spiral cable with a 12 V universal plug.

The perfect **transport trolley** makes it easy to move your Automanager around. Small items such as pens and calculators can be stored safely and tidily in the **office panel**. Mobile printers can also be securely attached to

the base of the Automanager using Velcro fasteners. The Automanager with power supply **can be plugged in** using a spiral cable with 12 V universal plug.

Automanager trolley

AMT

Ref. no. 601009549

Practical trolley for transporting the Automanager.

With telescopic handle.

Anti-theft device

AMD

Ref. no. 601009567

The anti-theft device provides additional security for your Automanager by fastening it to the seat with a steel cable.

Weight: 0.2 kg

Voltage transformer 12 V

AMSW

Ref. no. 601009449

12 V voltage transformer for connecting to the cigarette lighter. Various adaptors allow operation of a wide range of laptops and printers. (Please follow manufacturer's instructions.)

AUTOASSISTANT AND OFFICE BAG PRACTICAL PASSENGERS

Sortimo's **Autoassistant** is not just a handy desk pad. Its movable clipboard for notes, two compartments for storing files and brochures and bottle holder slot mean that everything is on hand when you are on the road. It fastens securely to the passenger seat and also offers additional storage space under the desk pad.

Whether it is open on the passenger seat or closed to create a briefcase or laptop case – the Sortimo **Office bag** has plenty of room for your laptop, mobile phone and pens.

Autoassistant

AAS

Ref. no. 801013911

Dim. (WxDxH): 362 x 480 x max. 661 mm

Weight: 7.4 kg

Autoassistant with two file compartments, desk pad with clipboard and slot for a 1.5 l bottle.

Includes a large box for all your documents.

With strap for fastening to the seat rest below the head rest.

Not suitable for installation on seats with non-removable headrests. (Affects the centre seat in the Renault Trafic, Opel Vivaro, Nissan Primastar, Renault Master, Opel Movano and NV400)

Divider for Autoassistant

TWSBB SF 05-11 AAS

Ref. no. 1000002082

Divider for better organisation of your Autoassistant.

Office bag

OT

Ref. no. 601014026

Dim. (WxDxH): 420 x 395 x 130 mm

The Office bag is securely fastened to the head rest and seat rest with easily-detachable straps.

Your documents, pens, phone and laptop are all at your fingertips.

And when it's folded up, the Office bag turns into a handy briefcase.
