SHELF SYSTEM FLEXRACK

NEW

Sortimo's new FlexRack:

- ▶ standard shelves with very high load capacity of 120 kg
- ▶ extremely light and stable due to the innovative Sortimo composite material
- ▶ individually configurable for every vehicle
- ▶ additional load securing possible through restraint poles
- ▶ conversion to ProSafe load securing rack when folded

Shelf adjustable towards the vehicle wall, in height and in the inclination angle.

- ▶ Through the flexibility, the rack can be perfectly adapted to your payload and your vehicle.

Horizontal and vertical securing of payload possible through the integrated load securing system ProSafe.

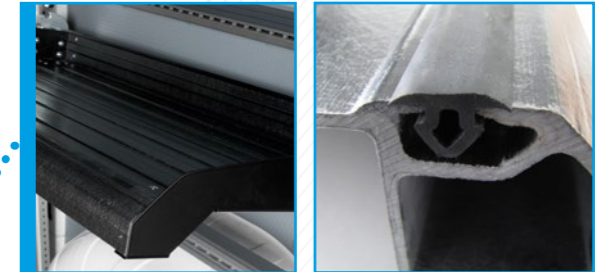

- ▶ The ProSafe system allows a simple and quick load securing.

Please find further information on our ProSafe system in the catalogue Original Accessories or on our website under sortimo.com/catalogues.

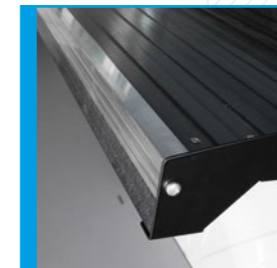

ON THE ROAD NOT ONLY QUICKLY BUT ALSO SAFELY!

Shelf without border with integrated anti-slip edge (GripMaxx).

- ▶ Large parcels can be transported safely and without damages.

Shelf with border: closed shelf with aluminium border

- ▶ Perfectly suited for small parts and light payload.

Independent locking when folding up the shelves.

- ▶ This facilitates a simple one-hand operation.

Upright adjustable in angle.

- ▶ The adjustment to the vehicle silhouette makes an optimal use of space possible.

ALL ADVANTAGES AT A GLANCE

- **safe storing** of parcels and other payload
- **space for bulky goods** thanks to foldable shelves
- **quick access** to all parcels
- **no damaging** of goods
- **optimal use of space** through individual planning
- **long life expectancy** and high resilience by the use of extremely stable fibre composite technology
- **suitable for heavy payload** as well
- **high payload** and **low fuel consumption** thanks to the low net weight of the components
- **load securing** through **integrated Sortimo ProSafe system**
