

# Meeting the challenges of tomorrow today.

This basic idea and a blue metal case were the start of the Sortimo System more than 40 years ago.

From the very beginning, the company founder, Herbert Dischinger, drove forward the innovative idea of an organisational system. The Sortimo product portfolio was developed around the inset boxes and the metal case and made Sortimo the world leading provider of van racking and load securing systems.

Well thought-out ergonomics, the best possible safety, outstanding quality and a long service life are properties that have characterised our products in tough day-to-day work for years.

These days, Sortimo is no longer just a manufacturer of van racking systems, but also offers a full-service concept with *mySortimo*. This offers far more than just individual and turnkey mobility solutions for light commercial vehicles, and adds value to the Sortimo product range, making procurement as simple as possible.

## #work your way!

mySortimo.com provides 24-hour information about the availability of all products and other services. You can equip your commercial vehicle with van racking systems online, create stickers and generate a complete mobile organisational system - as and when you wish, and at an attractive online price. If you require any support, the Sortimo Customer Service Centre can help on the phone, as can our Sortimo branches and stations.

**See for yourself at [www.mySortimo.com](http://www.mySortimo.com)!**

## mySortimo Account

### The benefits for you

Take advantage by setting up your own account showing content individually tailored to you, which you can use to make your day-to-day work even more efficient.

- › Useful tips for your light commercial vehicle
- › Online vehicle management
- › Save individual vehicle configurations
- › Order directly with installation service and preferred appointment options
- › Best price online

**Increase your productivity during your working day with the support of mySortimo.**

## Cost control and time savings

Save yourself extended procurement from different service providers by taking advantage of our comprehensive offer and getting exactly what you want 24 hours a day.

The *mySortimo* platform lets you retain full cost control of your van racking and sticker configurations as you can see the price at any point in the configuration, which allows you to plan your expenditure fully in line with your budget.

## Quality MADE IN GERMANY

We supply our customers worldwide from our only production facility in Zusmarshausen in Bavaria.

In spite of our global market outlook, we are proud of our home town of Zusmarshausen. This offers us a number of key benefits: Our production workflows are lean and our technical staff are highly qualified. Thanks to the short processes involved, we can continuously optimise our products and guarantee a consistent flow of information.

Our expertise ensures that the innovations and system solutions created here cannot be copied - let alone in "Made in Germany" quality.

All Sortimo product lines are also equipped with the TÜV seal for tested quality and have successfully undergone crash testing.

## Tailored solutions

Our diverse portfolio offers industry-specific and tailored solutions to provide even more efficiency in your day-to-day work.

Whether van racking systems, stickers or organisers from our range of accessories - you can prepare your vehicle in the best possible way and structure your vehicle to meet your specific requirements with support from *mySortimo*.

The organisational system for maximum efficiency

# SR5

**CONFIGURE ON**  
line at any time and with all the  
benefits of the mySortimo platform.

**HIGHEST LEVELS OF PRODUCTIVITY**  
by using workflow optimisation  
and 5S.

**TRIED AND TESTED QUALITY**  
maximum safety and durability.

**MAXIMISED LOADING**  
space as a result  
of flexible loading options.

## SR5 – The organisational system for maximum efficiency

### You can't get any more productive

SR5 is the 5th generation of the Sortimo van racking system and is the result of more than 45 years of experience in the organisation and equipping of light commercial vehicles.

As a pioneer in van racking systems, our product is synonymous with safety, sophisticated ergonomics, quality and durability.

In the age of change characterised by digitalisation, skilled labour shortage and Industry 4.0, efficiency and productivity are still the primary goals. We need to avoid compromise in the optimisation of working processes and, at the same time, handle our existing resources with care.

To meet these requirements, using our entire experience and passion we have developed a system that is more than just van racking and an organisational system. A system that is designed for perfect workplace organisation in the tightest of spaces. It is about maximum space utilisation coupled with clear layout and quick access to the required inventory in the vehicle.

We have placed the workflow of our customers at the core of our developments and have incorporated modern methods of workplace structuring, such as „5S“. We are proud of the outcome and we are looking forward to presenting the various diverse opportunities of the SR5 to you.

**Get to know SR5 and maximise the opportunities offered by the system to optimise your processes even more.**

Labels on page 26

## SR5 – The organisational system for maximum efficiency

### Compatible with tried-and-tested established systems – the Sortimo EcoSystem

Every handle has to fit. Everything fits together. This requires integration beyond the limits of the system.

The symbol of this is the L-BOXX, which is fully compatible with the entire Sortimo product range, and also with SR5 of course. In addition, manufacturers and retailers in virtually all sectors use the L-BOXX as packaging for tools and consumables. The Sortimo plastic slides fix the L-BOXX in place securely, problem-free and safely. Existing ranges and machines in the L-BOXX can thus be transferred to the vehicle using plug-and-play.

Additional manufacturers provide full compatibility with SR5 with their cases. For example, the new Hilti case can be integrated in the SR5 van racking system using the plastic slides. We have taken out patents for this because the benefits for our customers are clear and paramount.

The working processes associated with light commercial vehicles naturally include professional load securing. At Sortimo this is called ProSafe. It is the only load securing system that systematically works using the original lashing points of light commercial vehicles, on individual floor lashing points or wall rails, and also integrated in the van racking or roof racking system. Of course the SR5 also remains fully compatible with ProSafe.

**Take advantage of this - SR5 adapts to your environment and systems, and also ensures consistency in your work processes.**

**ProSafe - also compatible  
with the original lashing points  
of the vehicle manufacturer**

**BOXXes and cases can  
be found from page 120**

## SR5 – The most important components at a glance

### Long components tray

The long components tray can be used for the safe storage of long objects, such as pipes, cable ducts, yardsticks, aiming stakes and much more. Opening the rear section allows the contents to be simply removed at the rear.

### SR-BOXX

SR-BOXXes are ideal for stowing small components and tools. The BOXes can be integrated on, and under, the shelves in the van racking using the plastic slides. An optional cover protects them from dust and dirt in the vehicle and on the building site.

### SR drawer

Representing an innovative alternative to a drawer, the SR drawer offers the tried-and-tested Sortimo SR drawer function, but can be removed completely at any time. Dividers and inset boxes provide a wide range of organisational options.

### Case fixation

Provides a secure hold for any tool boxes and can be positioned with one hand.

### Mobile ranges

Our cases and BOXes, are the ideal solution for everything, that needs to be taken from your vehicle to the building site and back to the workshop tidily and securely. Tools in other manufacturers' L-BOXes, including Bosch or the Hilti case (size 20), can be safely stowed using the Sortimo plastic slide.

### ProSafe

The only integrated load-securing system for light commercial vehicles with lashing points and rails in the floor and on the wall, roof rack system and also compatibility with the vehicle – original lashing points are also, of course, integrated in SR5.

### mySortimo labels

Organising your load area is perfected using labels with the Sortimo colour code.

### Shelves

The shelf is available in various different versions: Front open for BOXes with a low or high edge (H2=34 mm, H4=68 mm) or optionally with a flap. All shelves can be fitted with SR-BOXes at the base. The positioning of the shelves can be varied to the back or front. In this way, the SR5 shelf can be matched to the contour of the vehicle leaving room between the shelves for the load and freedom of movement. Use of the roof area, otherwise hardly used, is maximised.

### Side profile

The basis of each SR5 shelf offers maximum payload and load space on the floor of the vehicle on account of its sturdy compact construction, providing for a quick overview and improved access to the shelves.

### Drawers

The full extension of the drawers provides the best overview and quick access to tools, screws and spare parts. Extremely sturdy, thanks to the anodised aluminium front, like all SR5 elements.

### Side profile accessories

SR5 accessories offers practical solutions for every sector and for the most varied of requirements. The screwing position can be varied so that it is at the desired height.

### SoboPro

The installation and load-securing floor, with its integrated ProSafe Universal lashing points, offers various opportunities for load-securing. At the same time, the most common SR5 configurations can be installed by plug-and-play.

## SR5 – Simply configure online

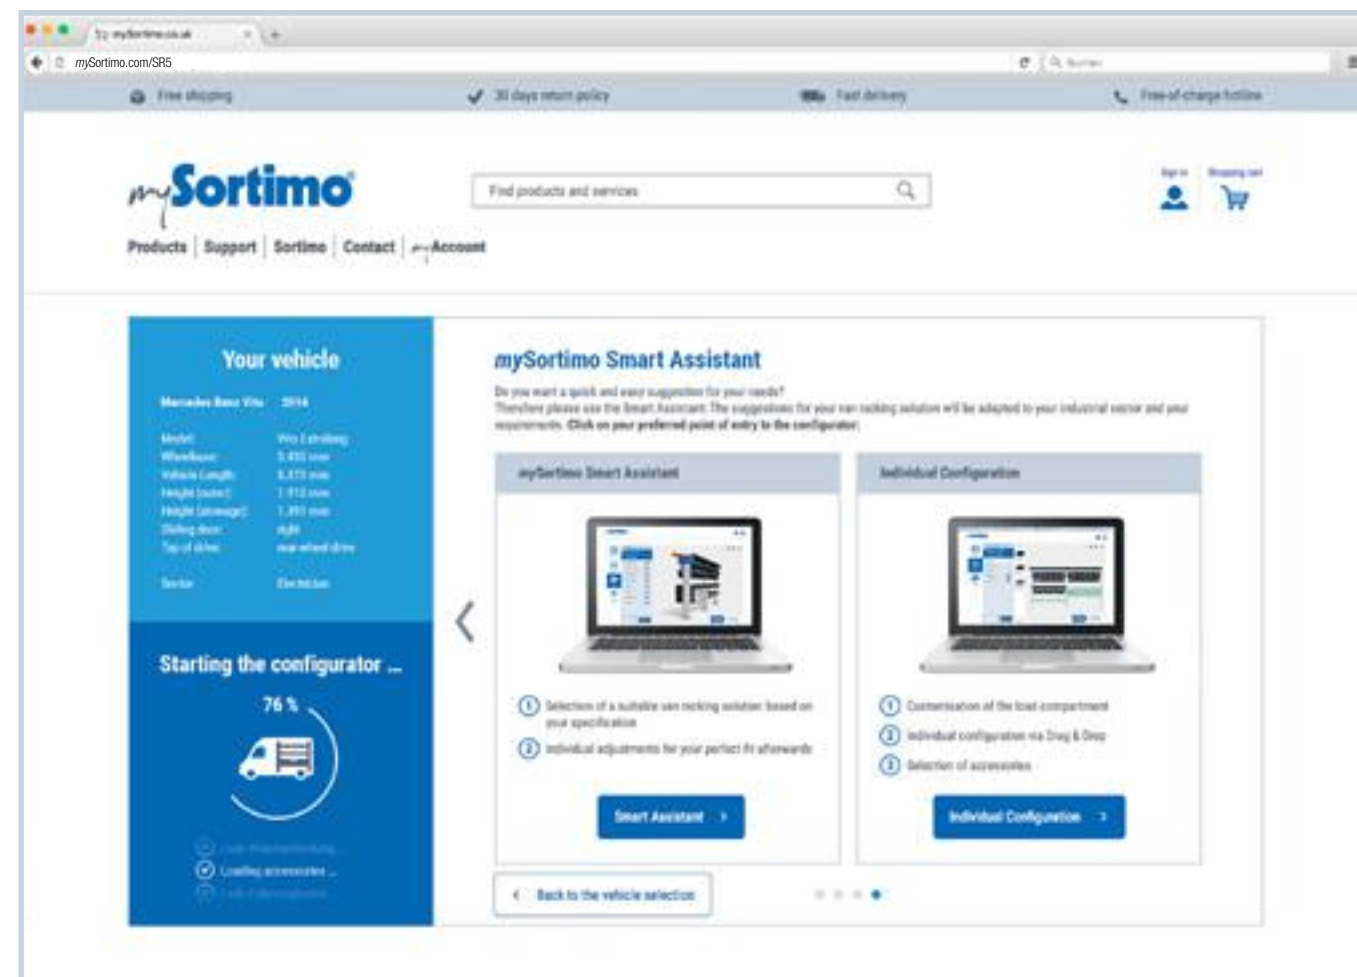

The new mySortimo van racking configurator lets you create your own SR5 configurations in just a few steps. Either simply getting to know the opportunities of SR5 in interactive 3D, or ordering it directly via the mySortimo platform.

Perhaps you might like to test it yourself:

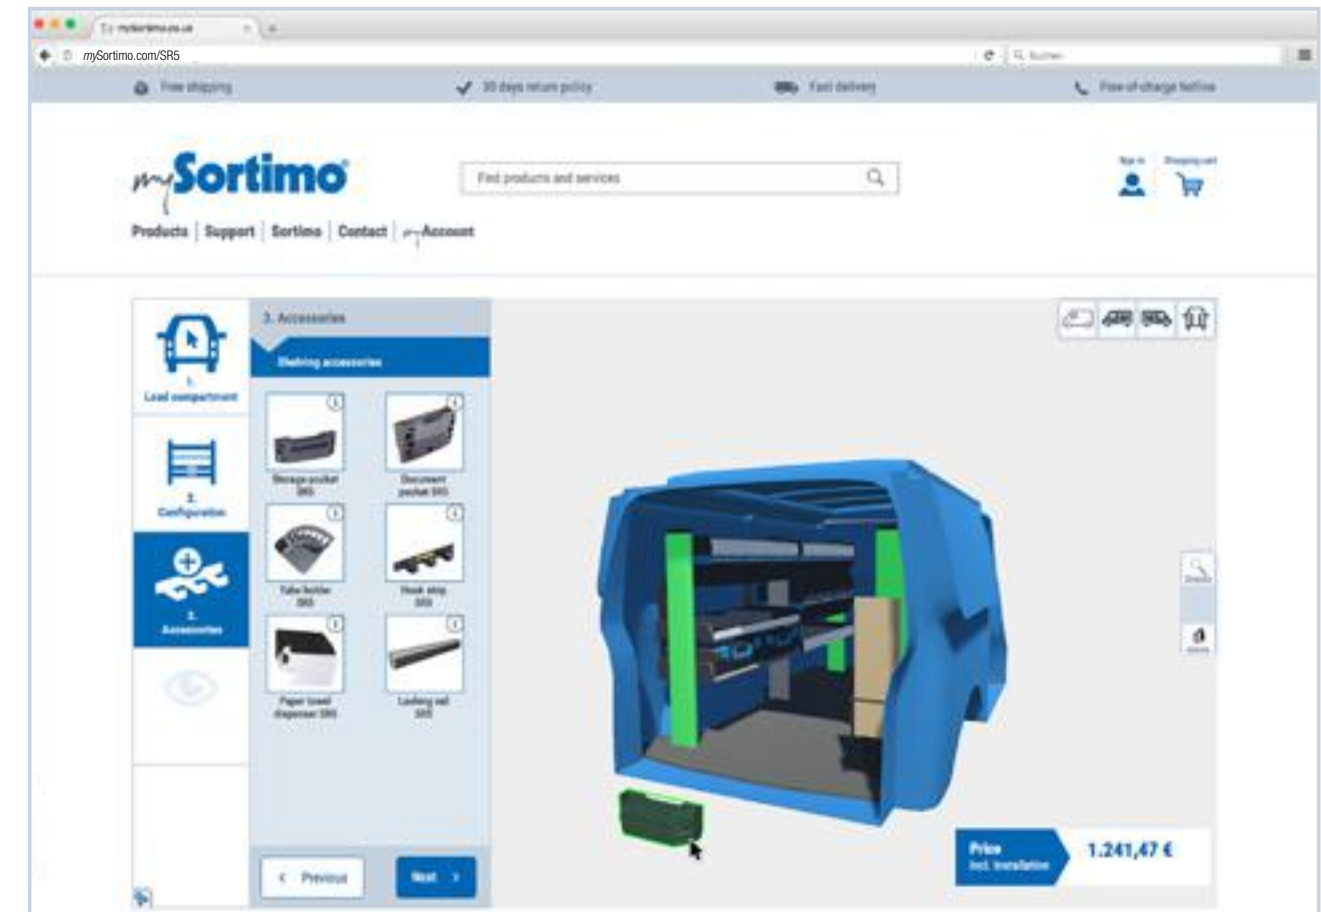

[www.mySortimo.com/SR5](http://www.mySortimo.com/SR5)

Brand new and absolutely unique on the market! The SR5 will be available starting September 2018 with a reduced product scope and only on-line. The complete SR5 series will be available starting January 2019.

After selecting the vehicle, the configurator offers two start-up options, absolutely free of charge - and individual or using a suggestion based on your entries and requirements:

The actual configuration is done in 4 simple steps during which you customise the van racking system and select your preferred options:

### Take advantage of the comprehensive benefits of our *mySortimo* platform:

- **Best Price Online** – we also profit from automatic processes on our platform. These savings are handed on to you with great discounts on our regular list prices.
- **Price transparency** – you will get a full overview of the current costs, including installation during configuration.
- **Storage and permanent access** to the configuration and immediate ordering is possible.
- **Appropriate additional offers**, tailored to your requirements, and everything from a single supplier without the need to consult third parties.
- **Comprehensive and interactive explanations** of our products during configuration.

## Maximum use of the load area – Space exactly where you need it

The load area of the vehicle is ideally used with the SR5 concept. The compact side profiles require considerably less space than the frame construction of conventional van racking systems. Variation in the component depths and installation position means that the van racking system ideally adapts to the contour of the vehicle.

Installation of the components offset to the middle of the vehicle means that the SR5 shelf ideally adapts to the contour of the vehicle. The entire depth of the shelf is retained and the roof area in the vehicle is utilised to best advantage.

The reduction in component height at the top means that the components are still aligned in the direction of the middle of the vehicle. The advantage of this version is that the van racking system can still be used as a location for panel materials among other things. ProSafe lashing rails provide support surfaces and lashing facilities.

The slim structure means that valuable space remains fully available on the floor of the vehicle - for example for the transport of a Euro pallet.

**Maximum use of the load area**

## Maximum use of the load area – More capacity with less space

The functionality of the suspended SR-BOXes is unique in van racking systems. The number of BOXes per shelf can thus be doubled in this way and even open shelves with edge can be loaded with SR-BOXes. The space available on the shelf is maximised!

The plastic slides on the top and bottom of the shelves allow the BOXes to be simply pulled out for easy access to the contents, or for complete removal of the BOXes by lifting them slightly.

mySortimo labels

## Vehicle organisation – a place for everything

Adhesive labels, dividers and inlays minimise searching and access times in day-to-day working: increasing productivity and efficiency

## SR5 – increased productivity with 5S

# 5S

methode

Sortimo integrates the 5S method, firmly established in the industry, in the vehicle. The method, which comes from Japan, aims to optimise workplaces in terms of organisation and cleanliness, to facilitate maximum productivity. SR5 van racking provides all requirements for this: Special configuration options matched to workflows, maximum organisation by sub-division, labelling and tool inserts, together with complete systemisation using our cases and BOXXes.

## 1. Sorting

Storage space and payloads are limited, particularly in your vehicle. Another reason to transport just the things you actually need. SR5 van racking provides a comprehensive overview in the vehicle and helps to identify tools or small components and organise them if required. This makes more space available for transport and also reduces fuel consumption of the vehicle as a result of the reduced overall weight.

## 2. Systemisation

Work processes can be optimised by systematic organisation in the vehicle, minimising search and access times. Sophisticated arrangement of the objects helps with efficient access to the contents. For example, we can eliminate the need to enter the vehicle by placing frequently needed objects close to the vehicle doors. The use of tool inserts ensures that everything has its own space and the two-colour arrangement means that a missing tool becomes immediately apparent.

## 3. Cleaning

Cleanliness in the vehicle reduces the time it takes you to access the contents and simultaneously increases safety at work. In addition, this is the best way of promoting your working methods with your customers. Unlike an untidy vehicle, structured organisation in the SR5 van racking makes it possible to clean the load area simply and without the need for time-consuming clearing out. Including your vehicle's interior in regular vehicle maintenance definitely pays off.

## 4. Standardisation

Include standards in your vehicle and workshop! Sortimo offers the right solution! The use of colour codes shows where things belong at a glance. You can decide yourself how to structure your system: Allocate the colours according to the type of content (e.g. tools, consumables etc., or screws, plugs etc.), according to vehicle or employee, or also according to your individual system - however you need it to suit your method of working! The consistent use of standard cases and BOXXes also makes it possible to standardise and ensure that everything fits together! For example, the L-BOXX is a packaging solution for tools and consumables widely used in the marketplace. Sortimo's versatile individual solutions make it possible to standardise virtually all your materials and tools from a packaging point of view and thus benefit from the advantages in transport and working.

## 5. Self-discipline

A SR5 van racking system adapted to your workflows gives you the best prerequisites for maintaining order and cleanliness in your vehicle. Continuous improvement forms part of the 5S method. For this reason, the workflows always need to be critically scrutinised to maximise any potential for improvement. The flexibility the SR5 van racking enables numerous customisation options. The quick adapter can be used to convert individual components quickly and easily, enabling you to keep up with the changing requirements of your working environment.

SR5 – mySortimo labels

- Individual labelling of shelves, drawers and BOXXes
- Actively helps to maintain order and prevents superfluous and unnecessary storage of inventory in the vehicle
- enables quick access thanks to tidy organisation
- Simplifies and accelerates the refilling process
- Creates order in the vehicle and in the interior of cases and BOXXes
- Free PDF labelling template to download
- With colour coding for visual marking and differentiation
- Tear-resistant, moisture-resistant and excellent adhesion properties

SR5 accessories – Useful extensions for the van racking system

SR5 accessories – Inset boxes

The inset boxes provide for greater productivity in day-to-day work, as they provide a quick overview of the small parts contained inside but you can also remove them directly from the cases and BOXXes and use them on site. Any missing or depleted stock levels are immediately identified, avoiding down times. Whether in the workshop, in Sortimo cases and BOXXes, the WorkMo or the Sortimo van racking system – inset boxes, available in a range of different sizes, enable you to equip yourself to meet individual requirements. Thanks to their integral divider guide, they can also be very individually sub-divided, making them even more flexible and efficient in day-to-day work. Together with mySortimo labels, they ensure professional, systematic and individual organisation at the workplace.

Inset box sets for drawers 24-6

SR5 accessories – Side profile extensions

The functionality of the SR5 van racking can be extended using accessories for the side profiles. Various storage compartments and holders and a complete work bench are available to expand the vehicle into a fully functioning mobile workplace.

More accessories starting on page 78

Product description		Ref. No.:
	<b>Storage pocket 04-7 SR5</b> <b>Dimensions (WxDxH):</b> 142 x 352 x 123 mm <b>Weight:</b> 0,8 kg Generates additional stowage space on the side profile of the SR5 van racking. With integrated tool clamping rail for stowing screwdrivers, pliers and much more.	1000012211
		
	<b>Document pocket 04-12 SR5</b> <b>Dimensions (WxDxH):</b> 99 x 356 x 203 mm <b>Weight:</b> 0,8 kg Suitable for documents of all types up to DIN A4 in size. Can be installed at any height on the side profile.	1000012208

Product description		Ref. No.:
	<b>Hook strip 04 SR5</b> <b>Dimensions (WxDxH):</b> 98 x 355 x 90 mm <b>Weight:</b> 1,17 kg Rail with three hooks for stowing cables, clothing etc. on both the side profiles of the SR5 van racking.	1000012210
	<b>Lashing rail ProSafe 04-3 SR5</b> <b>Dimensions (WxDxH):</b> 345 x 47 x 28 mm <b>Weight:</b> 0,34 kg Interface to ProSafe load securing system. Secure fixing of load on the SR5 van racking with lashing straps or rubber retaining straps.	1000012209
	<b>Tube holder middle SR5</b> <b>Dimensions (WxDxH):</b> 119, x 266 x 201 mm <b>Weight:</b> 1,34 kg Organised and safe transport of cables and hoses on the side profile of the SR5 van racking. Convenient and quick access also from outside the vehicle.	1000012207
	<b>Paper towel dispenser SR5</b> <b>Dimensions (WxDxH):</b> 151 x 34 x 160 mm <b>Weight:</b> 1,67 kg A clean cloth for cleaning your hands or tools should always be available. Cover prevents undesirable rolling away.	1000012206

Product description		Ref. No.:
	<b>Hinged workbench 100 SR5</b> <b>Dimensions (WxDxH):</b> 810 x 260 x 210 mm <b>Weight:</b> 14,5 kg Fold-out work bench including vice 100. The working height of the work bench varies according to the loading edge of the vehicle. Worktop dimensions 195 x 583 x 30 mm.	1000012749

Installation - Load-securing - Cargo space protection

## Floor and wall claddings

Protects the cargo area from wear and damage

Lashing possibilities for professional load-securing

Ideal combination with SR5 from integrated mounting points

Easy-care, sturdy and easy to clean

# Installation and load-securing floors

Floor and wall cladding form the basis of professional vehicle equipment. Sortimo offers the right solution with the vehicle-specific sets in various different designs for any application. This includes our own integrated and developed load-securing system ProSafe, which facilitates diverse solutions for load-securing.

Sortimo floor and wall cladding contributes significantly to the value retention of your vehicle. They protect the chassis from damage and can be removed without leaving any residues if necessary.

SoboGrip

Sturdy mounting floor with non-slip coating for alternating types of load.

SoboPro

load-securing floor with lashing points for SR5 van racking and additional universal lashing points.

SoboPro lashing bar

Load-securing floor with lashing points for SR5 van racking and additional universal lashing points for mounting lashing bars.

from page 48

Original lashing points remain available using the integrated flush lashing points, in the floor, and are compatible with ProSafe.

## Installation and load-securing floor

- made from Scandinavian birch
- 9 mm thick, 7-fold bonding
- extremely impact and scratch-resistant
- moisture-resistant
- SR5 ready with the integrated lashing points of the SoboPro floors
- adjusted fitting for the vehicle
- no drilling of the vehicle floor necessary

## Maximum utilisation of the load area in the vehicle with SoboPro and SR5 van racking

### SoboPro

The SoboPro mounting floor permits simple and quick mounting of the Sortimo van racking SR5 in the vehicle without having to drill through the vehicle chassis, thanks to the integrated mounting points. The standard lashing trays included in the Transporter can still be used.

The SoboPro mounting floor has additional universal lashing points alongside the pre-configured lashing points. This results in an innovative and professional load-securing concept which permits flexible lashing of loads to the floor. The universal lashing points are arranged in such a way that the valuable storage space on the floor of the vehicle itself, combined with the installation of SR5 van racking, can be utilised in an ideal manner.

## Load-securing as standard

The SoboPro floor is compatible with all ProSafe products, such as lashing straps, CargoStopp and load-securing nets. The protection floor is resistant to dirt and water, is easy to clean and is extremely scratch and impact resistant.

Installation and load-securing floors

SoboPro lashing bar

The SoboPro restraint pole, in conjunction with the lashing points for SR5 van rackings, has additional universal lashing points. In combination with fixing rails above, fixed to the roof stringers, you can insert lashing bars to allow form-fitted securing of the load. Bulky goods and panel materials can thus be conveniently attached secured for transport. The universal lashing points can, in addition, be used for ProSafe lashing straps. The 7-fold bonded mounting floor, having a thickness of 9 mm, is scratch-resistant as a result of its multi-directional textured coating and is extremely slip-resistant even when wet.

## Wall cladding – Vehicle-specific interior space protection

The SowaFlex wall cladding, made from lightweight honeycomb material, protects the cargo area of the vehicle and weighs 60% less than comparable wood cladding. The extremely impact and scratch-resistant material protects the vehicle chassis in an optimum manner from damage and can be installed simply and without problems in the vehicle by fastening to the points provided by the vehicle manufacturer.

### SowaFlex

- Protects the vehicle from the inside against damage
- extremely impact and scratch-resistant
- adjusted fitting for the vehicle
- humidity- and chemical resistant
- 60% lighter than wood
- 100% recycleable honeycomb material

RW = rear-wheel drive, WAC = wheel arch cladding

Load-securing – by no means a trivial matter, but rather a deciding factor for goods transport when it comes to personal and road safety. This topic primarily concerns vehicle drivers, but vehicle owners and the vehicle loaders also have a responsibility in this area as well. With ProSafe, we provide a load-securing system that offers the highest level of safety, along with numerous solutions for meeting legal requirements. From floor plates to van racking all the way to the roof racks, ProSafe can be integrated universally into all Sortimo products. In addition, the system is also completely compatible with the original lashing points of the vehicle manufacturer. Therefore, load-securing can be managed simply and easily, which saves both time and money.

ProSafe – Load-securing as standard

Lashing rails

Sortimo lashing rails can be secured to the side wall, divider or to the van racking in conjunction with the SR5 side profile accessories adapter. Cargo can be secured flexibly in the entire vehicle in combination with the SoboPro load-securing floor and Sortimo lashing straps.

SR5 lashing rail incl. adapter

The ProSafe lashing rail incl. accessories adapter for the van racking SR5 side profile is the perfect interface with the ProSafe lashing system in the vehicle interior. The adapter can be positioned at any height on the side profile quickly and easily, and then secured via screws.

Description	Dim. (WxDxH) / Weight	Product description	Ref. No.
Lashing rail ProSafe 03-3 SR5	Dim.: 241 x 47 x 28 mm Weight: 0,2 kg	Width is approx. 253 mm.	1000012755
Lashing rail 04-3 SR5	Dim.: 345 x 47 x 28 mm Weight: 0,34 kg	Width is approx. 357 mm.	1000012209
Lashing rail ProSafe 05-3 SR5	Dim.: 449 x 47 x 28 mm Weight: 0,4 kg	Width is approx. 461 mm.	1000012756

Side wall/divider lashing rail

The lashing rail can be secured to the side wall or to the divider in the interior of the vehicle. This provides the perfect interface to the rest of the ProSafe lashing system.

Description	Dim. (WxDxH) / Weight	Product description	Ref. No.
Lashing rail ProSafe 40-3	Dim.: 980 x 47 x 28 mm Weight: 0,8 kg	Width is approx. 980 mm.	1000000245
Lashing rail ProSafe 50-3	Dim.: 1.222 x 47 x 28 mm Weight: 1,0 kg	Width is approx. 1222 mm.	1000000246
Lashing rail ProSafe 60-3	Dim.: 1.464 x 47 x 28 mm Weight: 1,2 kg	Width is approx. 1464 mm.	1000000247

Lashing rail ProSafe 120-3	Dim.: 2.916 x 47 x 28 mm Weight: 1,4 kg	Width is approx. 2916 mm.	1000000248

Screw set lashing rail	Dim.: 45 x 65 x 15 mm Weight: 0,07 kg	Screw set for securing the lashing rail to the divider.	71013290

ProSafe – Load-securing as standard

Restraint poles

The universally applicable restraint poles can be used both horizontally and vertically for securing loads depending on the position of the attachment points. They offer an optimal hold due to their square contours. Using traverse frames, restraint poles can be used horizontally between two SR5 shelves.

ProSafe restraint aluminium poles

The ProSafe restraint pole in aluminium is available in different lengths and can be cut to size thanks to its practical aluminium profile. In conjunction with the SoboPro load-securing floor in which the suitable universal lashing points for restraint poles are already integrated, this creates optimal cargo securing during transport.

Description	Dim. (WxDxH) / Weight	Product description	Ref. No.
Restraint pole aluminium ProSafe 1715mm	Dim.: 1.750 x 50 x 45 mm Weight: 3,19 kg	Suitable for the following vehicle: Renault Master H2 rear-wheel drive.	1000012680
Restraint pole aluminium ProSafe 1860mm	Dim.: 1.974 x 50 x 45 mm Weight: 3,46 kg	Suitable for the following vehicles: MB Sprinter high roof H2, VW Crafter high roof H2, Fiat Ducato high roof H2, Citroën Jumper high roof H2, Peugeot Boxer high roof H2.	1000012681
Restraint pole aluminium ProSafe 2000mm	Dim.: 2.130 x 50 x 45 mm Weight: 3,56 kg	Suitable for the following vehicle: Renault Master H2 rear-wheel drive.	1000012682
Restraint pole aluminium ProSafe 3000mm	Dim.: 3.114 x 50 x 45 mm Weight: 5,22 kg	For individual length adjustment.	1000012685

ProSafe fixing rail restraint pole

Fixing rail for attaching restraint poles in the roof area in combination with the ProSafe universal lashing point. The rail is available in two lengths and the fastening set is also included in the scope of delivery.

Description	Dim. (WxDxH) / Weight	Product description	Ref. No.
Fixing bar for restraint pole PS 980	Dim.: 979 x 39 x 13 mm Weight: 0,27 kg	Rail length is 980 mm.	1000012683
Fixing bar for restraint pole PS 1460	Dim.: 1.459 x 39 x 13 mm Weight: 0,41 kg	Rail length is 1460 mm.	1000012684

ProSafe individual lashing point restraint pole

Product description		Ref. No.
  <p><b>ProSafe individual lashing point restraint pole</b> <b>Dim. (WxDxH):</b> 83 x 20 x 5 mm <b>Weight:</b> 0,07 kg</p> <p>The ProSafe individual lashing point is screwed into the longitudinal groove of the restraint pole and, depending on the type of load, can be inserted and mounted individually. There are additional lashing options in the load area to secure the load quickly, flexibly and professionally. Max. load: 200 daN</p>		1000001736

ProSafe – Load-securing as standard

Load-securing accessories

Sortimo offers the perfect solution for a given application with its comprehensive range of accessories - suitable for the other ProSafe load-securing product range. Expand or optimise your existing load-securing concept customised to your requirements and wishes.

	<b>Screw fitting ProSafe M6x20</b> <b>Dim. (WxDxH):</b> 34 x 6 x 39 mm <b>Weight:</b> 0,03 kg Can be used in all ProSafe rails For the attachment of applications to the M6 threaded pin Max. load is 200 daN	6000003618
	<b>Fixing rail</b> <b>Dim. (WxDxH):</b> 290 x 16 x 8 mm <b>Weight:</b> 0,3 kg Plastic fixing rail Mounting to the installation and load-securing floors prevents slippage of cargo in the vehicle	80714206
	<b>Anti-slip protective corner</b> <b>Dim. (WxDxH):</b> 100 x 100 x 65 mm <b>Weight:</b> 0,25 kg stable, powder-coated metal corner with slip-resistant coating for sliding between the vehicle floor and the load prevents slippage of cargo in the vehicle	801012678

Anti-rattle mats

When securing cargo for transport, it makes sense to use slip resistant materials. Due to its properties, the anti-rattle mat provides an additional option for load-securing in the vehicle and also protects the vehicle floor.

Description	Dim. (WxDxH) / Weight	Product description	Ref. No.
<b>Universal anti-rattle mat 800x1200x4.5</b>	Dim.: 1.200 x 800 x 4 mm Weight: 2,02 kg	cut to any size required suitable for securing pallets or other cargo sliding friction quality $\mu=0,9$	6000003365
<b>Anti-rattle mat 750x500</b>	Dim.: 750 x 200 x 4 mm Weight: 0,11 kg	cut to any size required suitable for securing cargo in cars washable and extremely slip-resistant	6000001116
<b>Anti-slip mat pallets 200x100x8, 4pcs.</b>	Dim.: 200 x 100 x 8 mm Weight: 0,12 kg	as underlay on the corners, e.g. for Euro wooden pallets Packaging unit 4 in number sliding friction quality $\mu=0,77$	801014002

ProSafe – Load-securing as standard

Load-securing strap

The ProSafe lashing system enables the flexible lashing of cargo due to the numerous potential connection points on the Sortimo vehicle floor, the van racking as well as the lashing rail for side walls and dividers. Using the ProSafe lashing strap, you can secure cargo of all kinds in the vehicle quickly and easily.

ProSafe lashing strap with clamping lock

Load: max. 225 daN    Strap width: 25 mm    Turn buckle: Clamping lock    Hook: ProSafe

Description	Dim. (WxDxH) / Weight	Product description	Ref. No.
ProSafe lashing belt clamp buckle1.4 m	Dim.: 110 x 80 x 40 mm Weight: 0,17 kg	Strap length: approx. 1400 mm	1000000224

ProSafe lashing belt ratchet 6 m	Dim.: 130 x 140 x 55 mm Weight: 0,79 kg	Strap length: approx. 6000 mm	1000000226

i-BOXX 72 G load-securing

The i-BOXXes 72 G include the basic equipment for load-securing in a car and/or van, making all common load-securing measures possible. The load-securing elements are always clearly arranged in the i-BOXX 72 G and the i-BOXX G wall holder ensures that they are always readily to hand whilst on the go.

Product description		Ref. No.
	<b>i-BOXX 72 G Load securing estate car</b> <b>Dim. (WxDxH):</b> 367 x 316 x 72 mm <b>Weight:</b> 2,12 kg The basic equipment for load securing in the car (2x lashing straps with clamping buckle 3.5 m, 1x load safety net 1000x1200 mm, 1x anti-rattle mat 750x500 mm, 1x load securing flyer).	1000011186

	<b>i-BOXX 72 G Load securing LCV</b> <b>Dim. ProSafe – Load-securing as standard

Load-securing strap accessories

Product description		Ref. No.
	<b>Flexible edge protection lash.straps(4x)</b>	1000001870
	<b>Dim. (WxDxH):</b> 180 x 75 x 7 mm <b>Weight:</b> 0,24 kg The flexible plastic edge protection profile protects the load and prevents the lashing straps from slipping.	

	<b>Bag for lashing straps</b>	6000002454
	<b>Dim. (WxDxH):</b> 330 x 255 x 12 mm <b>Weight:</b> 0,27 kg For organised and protected storage of lashing straps. The bag for lashing straps can be secured to the aluminium side wall or to the divider.	

Round slings

The round sling is a lifting accessory for lifting and moving loads and complies with EN1492-2. It is also optimally suited for load-securing and is recommended by experts for use as a head sling.

Description	Dim. (WxDxH) / Weight	Product description	Ref. No.
<b>Round sling 2t, 2m</b>	Dim.: 260 x 100 x 50 mm Weight: 0,49 kg	Circumference length: 2000 mm Loading capacity: 2000 kg (direct)	801015075
<b>Round sling 2t, 3m</b>	Dim.: 270 x 110 x 50 mm Weight: 0,7 kg	Circumference length: 3000 mm Loading capacity: 2000 kg (direct)	801015076
<b>Round sling 2t, 4m</b>	Dim.: 290 x 130 x 50 mm Weight: 0,89 kg	Circumference length: 4000 mm Loading capacity: 2000 kg (direct)	801015077

ProSafe elastic cord

The ProSafe elastic cord is ideally suited for the rapid fixing of large bulky loads in the vehicle.

Description	Dim. (WxDxH) / Weight	Product description	Ref. No.
<b>ProSafe bungee strap 1000 mm incl. 2 hooks</b>	Dim.: 95 x 130 x 40 mm Weight: 0,13 kg	Length: 1000 mm incl. 2 hooks	1000002455
<b>Bungee strap hooks ProSafe complete</b>	Dim.: 66 x 28 x 19 mm Weight: 0,01 kg	Replacement hooks for the ProSafe elastic cord.	1000002480

Lashing belt with clamping lock

Load: max. 225 daN    Strap width: 25 mm    Turn buckle: Clamping lock    Hooks: without

Description	Dim. (WxDxH) / Weight	Product description	Ref. No.
<b>Lashing strap with clamp buckle 0,25 m</b>	Dim.: 70 x 30 x 40 mm Weight: 0,07 kg	Strap length: approx. 250 mm	801015938
<b>Lashing strap with clamp buckle 1,2m</b>	Dim.: 90 x 50 x 35 mm Weight: 0,14 kg	Strap length: approx. 1200 mm	1000003942
<b>Lashing strap with clamp buckle 3,5 m</b>	Dim.: 97 x 50 x 35 mm Weight: 0,16 kg	Strap length: approx. 3500 mm	80714114

Lashing strap ratchet and carabiner

Load: max. 500 daN    Strap width: 25 mm    Turn buckle: Ratchet    Hook: Carabiner

Description	Dim. (WxDxH) / Weight	Product description	Ref. No.
<b>Lashing strap ratchet, carabiner 3.5 m</b>	Dim.: 55 x 190 x 120 mm Weight: 0,84 kg	Strap length: approx. 3500 mm	80714091
<b>Lashing strap ratchet, carabiner 6 m</b>	Dim.: 155 x 140 x 55 mm Weight: 0,94 kg	Strap length: approx. 6000 mm	801016217

Lashing belt clamping lock and lashing hooks

Load: max. 225 daN

Description	Dim. (WxDxH) / Weight	Product description	Ref. No.
<b>Lashing strap w. lock buckle</b>	Dim.: 185 x 155 x 35 mm Weight: 0,24 kg	Strap length: approx. 2000 mm	801006371

## ProSafe – Load-securing as standard

### Load safety nets

ProSafe load securing nets can be used at all available ProSafe lashing points as well as at the original lashing points of your light utility vehicle, and then easily stowed away in Sortimo BOXXes after use. Nets are available in several different sizes to ensure that even bulky or round objects are perfectly secured. The quality and functionality of all ProSafe load-securing nets have been tested and certified by Dekra in compliance with the regulation VDI 2700 page 3.3.

### Load safety nets ProSafe with ratchet

Loading capacity: max. 400 daN    Turn buckle: 4x ratchets, 2x clamping locks    Mesh size: approx. 120 x 120 mm    Strap width 25 mm    Hook: ProSafe

Description	Dim. (WxDxH) / Weight	Product description	Ref. No.
<b>ProSafe Load securing net 1400x1025</b>	Dim.: 1.400 x 1.025 x 30 mm Weight: 3,2 kg	Dimensions: 1400 x 1025 mm	<b>1000001305</b>
<b>ProSafe Load securing net 1775x1150</b>	Dim.: 1.775 x 1.150 x 30 mm Weight: 4,4 kg	Dimensions: 1775 x 1150 mm	<b>1000001306</b>
<b>ProSafe Load securing net 2275x1650</b>	Dim.: 2.275 x 1.650 x 30 mm Weight: 7,0 kg	Dimensions: 2275 x 1650 mm	<b>1000001307</b>

### ProSafe load safety nets with clamping lock

Loading capacity: max. 200 daN    Turn buckle: 4x clamping locks    Mesh size: approx. 120 x 120 mm    Strap width: 25 mm    Hook: ProSafe

Description	Dim. (WxDxH) / Weight	Product description	Ref. No.
<b>ProSafe Load securing net 775x900mm</b>	Dim.: 775 x 900 x 19 mm Weight: 0,61 kg	Dimensions: 775 x 900 mm	<b>1000004934</b>
<b>ProSafe Load securing net 775x1025mm</b>	Dim.: 775 x 1.025 x 19 mm Weight: 0,7 kg	Dimensions: 775 x 1025 mm	<b>1000004935</b>
<b>ProSafe Load securing net 1025x1275mm</b>	Dim.: 1.025 x 1.275 x 19 mm Weight: 0,91 kg	Dimensions: 1025 x 1275 mm	<b>1000004936</b>

### Green waste net

The knotted green waste net can be easily attached to trailer hooks and secures green waste such as leaves from flying around. Even larger cargo can be covered and secured for transport using these nets.

Description	Dim. (WxDxH) / Weight	Product description	Ref. No.
<b>Green waste net for trailer 2,2 x 1,5</b>	Dim.: 2.200 x 1.500 x 30 mm Weight: 0,7 kg	Dimensions: 2200 x 1500 mm	<b>6000001547</b>
<b>Green waste net for trailer 2,7 x 1,5</b>	Dim.: 2.700 x 1.500 x 30 mm Weight: 0,8 kg	Dimensions: 2700 x 1500 mm	<b>6000001548</b>
<b>Green waste net for trailer 3,5 x 2,5</b>	Dim.: 3.500 x 2.500 x 30 mm Weight: 0,9 kg	Dimensions: 3500 x 2500 mm	<b>6000001549</b>

Description	Dim. (WxDxH) / Weight	Product description	Ref. No.
<b>Hooked tie plate 50 x 40 mm</b>	Dim.: 50 x 40 x 20 mm Weight: 0,5 kg	Packaging unit: 10 pieces	<b>6000001550</b>

### Cargo net

The load safety net specially designed for cars is available in two sizes.

Description	Dim. (WxDxH) / Weight	Product description	Ref. No.
<b>Load safety net 800x1000mm</b>	Dim.: 250 x 200 x 72 mm Weight: 0,55 kg	Dimensions: 800 x 1000 mm	<b>6000001114</b>
<b>Load safety net 1000x1200mm</b>	Dim.: 250 x 200 x 72 mm Weight: 0,68 kg	Dimensions: 1000 x 1200 mm	<b>6000001113</b>

Work benches

Turn your vehicle into a mobile workshop - with a work bench from Sortimo. The Sortimo work benches can be quickly and simply adapted to the SR5 van racking or can be bolted to the floor of the vehicle. A sensible add-on to the work bench is a swivel vice plate with parallel vice and this permits execution of simple installation activities directly in the vehicle. The mobile workshop simplifies day-to-day working, saves time and gives the customer a professional appearance at the same time.

Product description	Ref. No.:
 <b>Hinged workbench SR5</b> <b>Dimensions (WxDxH):</b> 810 x 260 x 210 mm <b>Weight:</b> 9,0 kg The working height of the work bench varies according to the loading edge of the vehicle. Distance from loading level to worktop is at least 515 mm. Plate dim. (WxDxH): 195 x 583 x 30 mm. Fold-out work bench. (adapted to the SR5 van racking)	1000012542

Product description	Ref. No.:
 <b>Heavy duty work bench hinged s. foot</b> <b>Dimensions (WxDxH):</b> 1.180 x 325 x 320 mm <b>Weight:</b> 22,1 kg The working height of the work bench varies according to the loading edge of the vehicle 760 - 940 mm. Distance from ground to loading level 643 - 823 mm. (height console 117 mm) Plate dim. (WxDxH): 280 x 1.000 x 35 mm. For vehicles with a higher loading sill. (mounted on the vehicle floor)	1000000527
 <b>Heavy duty work bench 2.0 hinged</b> <b>Dimensions (WxDxH):</b> 1.200 x 340 x 320 mm <b>Weight:</b> 25,0 kg The working height of the work bench varies according to the loading edge of the vehicle 760 - 940 mm. Distance from ground to loading level 490 - 670 mm. (height console 270 mm) Plate dim. (WxDxH): 280 x 1.000 x 35 mm. For vehicle with a low loading sill. (mounted on the vehicle floor)	1000000528

Parallel vice

The parallel vice is available in various different sizes and is a practical aid for a wide variety of work. All parallel vices have an integrated anvil, trapezoidal thread, forged-on pipe jaws and thus guarantee the highest precision.

Product description	Ref. No.:
<b>Parallel vice 100</b> Jaw width is 100 mm, opening width is 125 mm.	6000002446
<b>Parallel vice 120</b> Jaw width is 120 mm, opening width is 150 mm.	801008322
<b>Parallel vice 140</b> Jaw width is 140 mm, opening width is 215 mm.	801008323

Swivel vice plate

the swivel vice plate serves a link between the work bench and the parallel vice and is thus the optimum supplement for your mobile workshop. The swivel vice plate can be moved through 360° in a circle and thus permits more flexible working with the parallel vice in the vehicle.

Product description	Ref. No.:
<b>Swivel vice plate 100</b> Suitable for Parallel vice 100.	6000002447
<b>Swivel vice plate 120</b> Suitable for Parallel vice 120.	801008324
<b>Swivel vice plate 140</b> Suitable for Parallel vice 140.	801008325

Vehicle accessories – The mobile workshop

Auto-Assistant

The Auto-Assistant serves as a practical writing surface and organisation aid for documents on the passenger seat. Thanks to the adjustable clamping fixture for notes, two storage pockets for folders and brochures and a recess for a 1.5 l drink bottle, you always have the essentials for your appointments ready to hand. Additional storage space for documents can be found under the writing surface. This large compartment can also be subdivided with an optional partition wall so that two compartments are available to you.

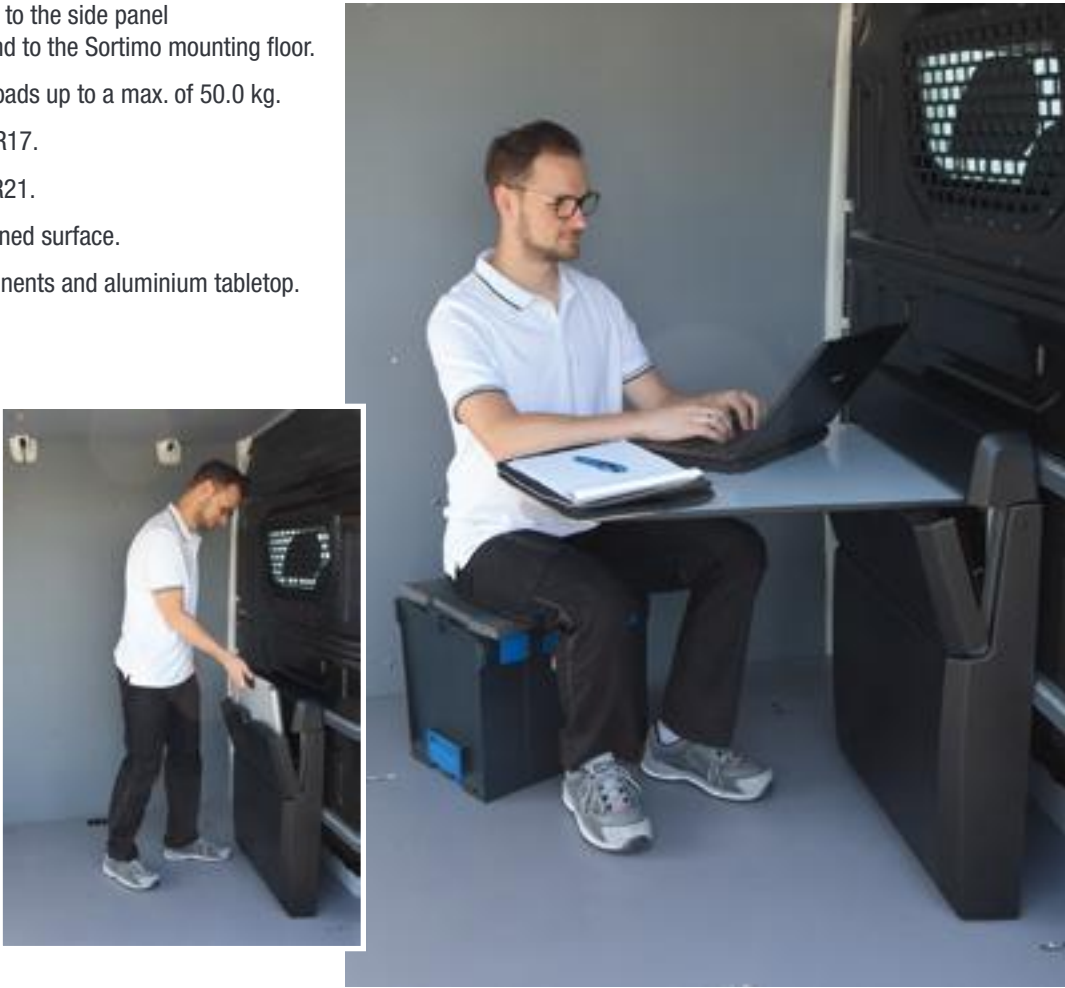

Product description		Ref. No.:
	<b>Autoassistant</b> <b>Dimensions (WxDxH):</b> 362 x 661 x 480 mm <b>Weight:</b> 7,4 kg Scope of supply including fixing buckle for the backrest under the head restraint and belt guide on the side. Not suitable for installation on seats with non-removable head restraints.	801013911
	<b>Retaining plate elec.headrest Autoass.</b> <b>Dimensions (WxDxH):</b> 266 x 68 x 2 mm <b>Weight:</b> 0,15 kg Facilitates the fixing of the autoassistant, even with non-removable or electric head restraints.	1000004023
	<b>Divider S-BOXX wide pl. window 05-11 AAS</b> <b>Dimensions (WxDxH):</b> 279 x 174 x 7 mm <b>Weight:</b> 0,08 kg For clear space distribution in your autoassistant.	1000002082

Panel table

The Sortimo side panel table offers optimal, mobile office space in the cargo area, allowing you to handle administrative tasks or complete evaluations or documentation on site in the vehicle. The side panel table provides a large work surface of 628 x 600 mm and when folded away, only takes up 180 x 700 mm of space so that it does not continually block valuable cargo space.

- Flexible screw connection to the side panel or divider in the vehicle and to the Sortimo mounting floor.
- The tabletop can handle loads up to a max. of 50.0 kg.
- Crash-tested as per ECE-R17.
- Head impact as per ECE-R21.
- Black cladding with a grained surface.
- Sturdy mechanical components and aluminium tabletop.
- Not for use while driving.

Product description		Ref. No.:
	<b>Side panel table</b> <b>Dimensions (WxDxH):</b> 890 x 730 x 160 mm <b>Weight:</b> 18,0 kg  Make more productive and better use of your time waiting between appointments with the practical side panel table.	1000012716

## Vehicle accessories – The mobile workshop

### Interior ladder lift 1800

The Sortimo interior ladder lift provides a new solution for the simple and space-saving stowage of ladders inside the vehicle. The key benefit of this new development is that the ladder is installed underneath the ceiling, leaving the unused space available for additional storage. The optimisation of storage utilisation along with quick and easy handling saves both time and money.

- The ideal organisational aid for additional storage optimisation in the vehicle interior.
- Lets you easily transport aluminium double ladders up to 1.8 m long and 18 kg in weight on the roof lining.
- Easy and fast operation through gas pressure spring without any effort.
- Highest security in an emergency braking and when taking curves through high-quality materials.
- Both brackets are covered with rubber mats in order to prevent any damage to ladder or lift.
- Not suitable for the installation in vehicles with plastic pillars.

Product description		Ref. No.:
	 <b>Interior ladder lift 180</b> <b>Dimensions (WxDxH):</b> 1.790 x 184 x 250 mm <b>Weight:</b> 8,0 kg  Suitable for all commercial vehicle models.	1000004569

### Aluminium foldable ladder for Sortimo TopSystem

The aluminium foldable TopSystem ladder is the perfect combination for the interior ladder lift 1800 and it is also ideally suited for high vehicles as a leaning ladder for loading activities with the Sortimo TopSystem. Furthermore the slip resistant rubber feet of the aluminium foldable ladder enables safe standing and descent at any time.

Product description		Ref. No.:
	 <b>TopSystem Aluminium foldable ladder 3000 mm</b> <b>Dimensions (WxDxH):</b> 1.570 x 350 x 125 mm <b>Weight:</b> 6,5 kg stable folding lock can fold away to 1.5 m max. resilience 150 kg	811016006

  
Sortimo TopSystem  
starting on page 232

### Telescopic ladders

The telescopic ladders from Sortimo are made of anodised tubes and glass fibre reinforced hard plastic elements. Rubber feet provide for maximum grip on the ground. Due to the compact dimensions, the ladders are easy to transport, perfectly suited for confined spaces and even fit into the boot of a car. All the telescopic ladders comply with the requirements of DIN EN 131-6:2015, DIN EN 131-1:2016 and DIN EN 131-3:2007.

Product description		Ref. No.:
	<b>Telescopic combination ladder 2.30 m</b> <b>Dimensions (WxDxH):</b> 610 x 165 x 710 mm <b>Weight:</b> 15,8 kg Telescopic combination ladder with 8 rungs. Extended length: 2.3 m    Retracted length: 0.79 m    Width: 0.48 m    Carrying capacity: 150 kg	801012159
	<b>Telescopic ladder 3,3m</b> <b>Dimensions (WxDxH):</b> 85 x 505 x 815 mm <b>Weight:</b> 10,5 kg Telescopic leaning ladder with 11 rungs. Extended length: 3.3 m    Retracted length: 0,78 m    Width: 0,49 m    Carrying capacity: 150 kg	80714909
	<b>Telescopic ladder 3.8m</b> <b>Dimensions (WxDxH):</b> 840 x 490 x 75 mm <b>Weight:</b> 13,8 kg Telescopic leaning ladder with 12 rungs. Extended length: 3.8 m    Retracted length: 0,84 m    Width: 0,49 m    Carrying capacity: 150 kg	6000001868
	<b>Carrier bag telescopic ladder</b> <b>Dimensions (WxDxH):</b> 15 x 285 x 1.050 mm <b>Weight:</b> 0,54 kg Carrying case for telescopic ladder up to 3.3 m length. The ladder remains safe and clean in its case and allows for easy carrying with a strap.	80714886

Designation	Product description	Ref. No.:
SP rubber feet	1 pair of replacement feet for telescopic ladders 3.3 m.	801013820
SP protect cap	1 cover cap suitable for all telescopic ladders.	801013822
SP foot complete	1 foot complete for combination ladder.	801013824
SP cross traverse	1 cross-member suitable for telescopic leaning ladder 3.8 m.	6000011735
Holder telescopic ladder	Secure stowage and quick accessibility, can be universally mounted in the vehicle.	80779281

## Vehicle accessories – The mobile workshop

### Ramp rails

Whether it be a washing machine or a lawn mower, the ramp rails, available in two lengths, rigid or folding, make possible the stowing of heavy and bulky loads quickly and conveniently. The lateral border protection (30/42 mm) enables reliable holding of the track when loading and unloading, even with large and heavy items. The transport area has a width of 150 mm (external width 234 mm), an anti-rattle mat coating P13 and a carrying capacity of 380 daN. This means that the aluminium rails not only save your back, but also make possible a rapid and convenient sequence for loading and unloading activities.

Product description		Ref. No.:	
	<b>Ramp rails 2 m</b> <b>Dimensions (WxDxH):</b> 2.000 x 234 x 47 mm <b>Weight:</b> 16,0 kg Two rigid aluminium loading rails 200 cm long.	801009243	414,60 EUR
	<b>Ramp rails 2,5 m</b> <b>Dimensions (WxDxH):</b> 2.500 x 234 x 47 mm <b>Weight:</b> 20,0 kg Two rigid aluminium loading rails 250 cm long.	801009245	522,80 EUR
	<b>Ramp rails foldable 2 m</b> <b>Dimensions (WxDxH):</b> 2.000 x 234 x 47 mm <b>Weight:</b> 18,0 kg Two folding aluminium loading rails 200 cm long.	801009244	589,90 EUR
	<b>Ramp rails foldable 2,5 m</b> <b>Dimensions (WxDxH):</b> 2.500 x 234 x 47 mm <b>Weight:</b> 22,0 kg Two folding aluminium loading rails 250 cm long.	801009246	665,60 EUR

### Fan

The authorities require vehicle ventilation with free openings when transporting gas bottles. Sortimo offers a ventilation system that can be used either for ventilation or extraction, depending on whether you are using heavy or light gases. The aerodynamic shape means that the throughput of fresh air is far in excess of the legal requirement.

Product description		Ref. No.:	
		<b>Roof vent</b> <b>Dimensions (WxDxH):</b> 258 x 196 x 48 mm <b>Weight:</b> 0,93 kg Material: UV resistant, impact resistant plastic Functionality: Ventilation or extraction system (rotating) Suitable for gas transport in accordance with the DGUV (German Statutory Accident Insurance Association) - in combination with floor or side vents.	80721099
		<b>Small roof vent</b> <b>Dimensions (WxDxH):</b> 97 x 72 x 135 mm <b>Weight:</b> 0,12 kg Material: UV resistant, impact resistant plastic Functionality: permanent fresh air circulation Suitable for gas transport in accordance with Dekra certification. (In combination with floor or side vents)	801016208
		<b>Round floor vent</b> <b>Dimensions (WxDxH):</b> 210 x 140 x 70 mm <b>Weight:</b> 0,26 kg Material: impact-resistant hard plastic with integrated thread Functionality: permanent fresh air circulation Suitable for gas transport in accordance with Dekra certification. (In combination with roof or side vents)	6000001283
		<b>Side vent black</b> <b>Dimensions (WxDxH):</b> 443 x 144 x 39 mm <b>Inside:</b> 262 x 126 x 72-40 mm) <b>Weight:</b> 0,48 kg Material: UV-resistant, impact-resistant plastic. Functionality: permanent fresh air circulation flow. Suitable for gas transport in accordance with the DGUV (German Statutory Accident Insurance Association) - in combination with roof or floor vents.	80721082
		<b>side vent white</b>	801015695
		<b>Ventilation plate side panel</b> <b>Dimensions (WxDxH):</b> 233 x 113 x 11 mm <b>Weight:</b> 0,20 kg The ventilation plate, made from stainless steel, is rust-resistant and is mounted on the side panel/divider of your vehicle.	80721037

Vehicle accessories – The mobile workshop

Shovel holder tailgate

The shovel holder for the tailgate is perfectly suited for exploitation of this otherwise unused space on the tailgate. Bulky loads, such as boards and ladders, or shovels, brooms and other tools with long handles are transported safely. Without having to access the vehicle, the shovel holder permits quick access to the equipment on site. In addition, the fixing rail is an aid for organised transport as a result of the hooks holding the equipment in place at all times, and thus improving organisation.

Product description		Ref. No.:
	<b>Rear door long handled tool holder</b>	1000002516
	<b>Dimensions (WxDxH):</b> 1.650 x 530 x 180 mm <b>Weight:</b> 6,7 kg The maximum load of the shovel holder is 15 kg.	
	<b>Long handled tool holder fixing bar</b>	1000002517
	<b>Dimensions (WxDxH):</b> 530 x 115 x 32 mm <b>Weight:</b> 0,9 kg Optimum supplement for the shovel holder - fixes the long-handled equipment at the top as well and provides organisation.	

Holding fixtures

The U-shaped holding fixtures are suitable for the secure transport of round or semi-round objects, such as standpipes, hydrant wrenches and equipment with long handles. The freight can be quickly secured and released by means of the locking device bracket. This product is particularly durable due to its sturdy holder and in addition protects the secured object from damage by means of its shock absorbing rubber rings.

Product description		Ref. No.:
<b>Locking pin 1</b>		801011062
<b>Dimensions (WxDxH):</b> 156 x 126 x 44 mm Can accommodate objects with dimensions of up to 89 x 89 mm.		
<b>Locking pin 2</b>		801011063
<b>Dimensions (WxDxH):</b> 126 x 44 x 96 mm Can accommodate objects with dimensions of up to 59 x 63 mm.		
<b>Locking pin 3</b>		801011064
<b>Dimensions (WxDxH):</b> 116 x 44 x 80 mm Can accommodate objects with dimensions of up to 50 x 50 mm.		

Plastic wedge

The plastic wedge is an aid for the secure transport of stand pipes or steel pipes and serves for floor fixing. The pipe to be transported is placed on the plastic wedge and is thus held in place. In addition, the pipe should be held in a holding fixture. As a result, unwieldy pipes and can be secured quickly and just as quickly removed from the vehicle cargo space. This saves much movement and of course thereby much valuable time.

Product description		Ref. No.:
<b>Plastic wedge B-pipes</b>		6000000079

Tool Clips

The tool clip is an uncomplicated holder used for hanging up your tools and equipment in the loading space of your vehicle or in your workshop. The different variants allow you simply and quickly to fasten tools and equipment having a diameter of 10 - 114 mm. As a result the materials are stowed away in an organised manner but are also accessible just as quickly. The tool clip is provided with a hole for universal installation.

Vehicle accessories – The mobile workshop

Hook

The various different Sortimo hooks stow various different materials, such as chains, hoses, cables and even clothing in a safe and organised manner in the vehicle. The available storage space is used in an optimum manner, time for unnecessary material searching and sorting is saved and a professional appearance is shown to the customer.

Heavy-duty hanger

You have the option to stow away your chains, hoses and cables in a quick and organised manner in the vehicle with the heavy duty hanger. It also permits immediate access to materials on site, eliminating tiresome searching and organising of cables and chains, permitting effective working.

Product description	Ref. No.:
<b>Heavy duty hanger 200</b> <b>Dimensions (WxDxH):</b> 300 x 203 x 97 mm Hook depth 20 cm, max. load 30 kg. Universal fastening in the vehicle interior.	<b>1000003373</b>
<b>Heavy duty hanger 300</b> <b>Dimensions (WxDxH):</b> 300 x 303 x 97 mm Hook depth 30 cm, max. load 30 kg. Universal fastening in the vehicle interior.	<b>1000003374</b>

Aluminium wall hook

The wall hook can be installed anywhere in the vehicle and provides additional storage possibilities for lines, cables, hoses and much more. This means that important materials are always stowed in the vehicle in an organised manner and are always quickly accessible.

Product description	Ref. No.:
<b>Aluminium wall hook size 1</b> <b>Dimensions (WxDxH):</b> 116 x 10 x 82 mm Hook depth 80 mm, max. load 15 kg.	<b>801012163</b>
<b>Aluminium wall hook size 2</b> <b>Dimensions (WxDxH):</b> 120 x 140 x 12 mm Hook depth 115 mm, max. load 15 kg.	<b>801012164</b>
<b>Aluminium wall hook size 3</b> <b>Dimensions (WxDxH):</b> 216 x 188 x 11 mm Hook depth 170 mm, max. load 15 kg.	<b>801012165</b>

Product description		Ref. No.:
		<b>Coat hook</b> <b>Dimensions (WxDxH):</b> 11 x 7 x 1 mm <b>Weight:</b> 0,03 kg The coat hooks can be mounted universally in the vehicle. This means that items of work clothing can be stowed in an organised manner in the vehicle and are quickly at hand if they are required. The packaging unit includes 3 coat hooks.

	<b>Kleenex towel box</b> <b>Dimensions (WxDxH):</b> 270 x 270 x 1 mm <b>Weight:</b> 0,74 kg 50 moist Kleenex cleaning tissues in a box for reliable cleaning of your hands, even if there is no running water. (Tissue dimensions 27 x 27 cm)	80778949
	<b>PVC hose, 1 m</b> <b>Dimensions (WxDxH):</b> 30 x 170 x 165 mm <b>Weight:</b> 0,12 kg Suitable for the outlet valve (801009992) for precise and easy draining of the wide-mouth canister.	80779212
	<b>Tap for water canister</b> <b>Dimensions (WxDxH):</b> 105 x 51 x 51 mm <b>Weight:</b> 0,04 kg Outlet tap appropriate for the Sortimo wide-mouth canister 5 or 10 litres.	801009992

SowaApp – always ready to hand

SowaApp

The Sortimo wall protects your vehicle, not only from scratches and damage, but it also offers easy storage options for tools and frequently required consumables. The moisture-resistant and sturdy wall is tailor-made to your vehicle and serves as system cladding e.g. above work benches. The innovative Sortimo system perforation allows attachment of a wide range of accessories, such as hooks, hose holders, storage pockets, perforated wall hooks and much more.

SowaApp - Storage pockets

The storage pocket is the perfect extension for a Sortimo van racking system, in order to stow away frequently used small components directly, in the aluminium side panel.

Product description	Ref. No.:
<b>Storage pocket SowaApp for inset box 2x3</b>	<b>1000003926</b>
<b>Dimensions (WxDxH):</b> 153 x 64 x 114 mm Suitable for inset boxes 2x3 or one inset box 1x2 and one inset box 2x2.	
<b>Storage pocket SowaApp for inset box 2x6</b>	<b>1000004278</b>
<b>Dimensions (WxDxH):</b> 315 x 105 x 65 mm Suitable for inset box 2x6.	

Also compatible with WorkMo.

Plaster dispenser SowaApp 1000004632

**Dimensions (WxDxH):** 223 x 166 x 67 mm  
**Weight:** 0,52 kg  
The plaster dispenser, including holder for the aluminium side panel is for treating small injuries and guarantees hygienic removal of finger dressings and textile plasters. You also have the additional benefit that the plaster can be immediately used since the protection paper on the back is removed automatically. Finger dressings and textile plasters are included in the scope of supply.

**Refill pack textile plasters 72x19 mm** 6000003303

**Refill pack finger dressings 120x20 mm** 6000003304

SowaApp – always ready to hand

SowaApp - Holder

You can transform your vehicle into a mobile workplace with the innovative accessories for the aluminium panel. The holders have been developed specially for the system perforated plate and make the working day more efficient. The mounting process is very simple thanks to metal straps for hooking-in and additionally supplied plastic rivets for fixation purposes. Each aluminium side panel accessory can also be loaded with up to 2 kg, so that installation and electrical tools can be stowed without any problem and they remain accessible at all times.

Product description		Ref. No.:
	<b>Round multi-holder 50 side panel</b> <b>Dimensions (WxDxH):</b> 100 x 65 x 89 mm <b>Weight:</b> 0,08 kg The round multi-holder (Ø 50 mm) is the perfect all-rounder. Suitable for cordless combi drill (combined with an individual tool hook Art. No. 6000002423 or 6000002424), long items or long-handled equipment (in combination with an HT pipe).	1000003922
		
	The cartridge holder stores all common silicone cartridges, spray cans, etc. in a space-saving and organised manner in the vehicle.	
	<b>Silicone cartridge holder 53 side panel</b> <b>Dimensions (WxDxH):</b> 136 x 66 x 87 mm <b>Weight:</b> 0,1 kg Internal diameter is 53 mm.	1000003924
		
	<b>Foam cartridge holder 73 side panel</b> <b>Dimensions (WxDxH):</b> 125 x 88 x 89 mm <b>Weight:</b> 0,11 kg Internal diameter is 73 mm.	1000003925
		
	<b>Universal holder side panel</b> <b>Dimensions (WxDxH):</b> 140 x 95 x 65 mm <b>Weight:</b> 0,23 kg Suitable for brooms, shovels and other equipment, such as squeegees. We recommend ProSafe elastic cord (Ref.No. 1000002455) for the fixing long handled equipment.	1000004281
		
	<b>Multi roll holder side panel</b> <b>Dimensions (WxDxH):</b> 140 x 135 x 16 mm <b>Weight:</b> 0,15 kg Suitable for round objects, such as the universal anti-rattle mat 800x1200 mm (Art. No. 6000003365). Securing is by Velcro strip. A 380 mm long Velcro strip is included with the roll multi-holder.	1000004633

<b>Velcro fastener f.bundl.purp. L=380 W=30</b>		6000003364
<b>Velcro fastener f.bundl.purp. L=480,W=30</b>		6000003305

Product description		Ref. No.:
	<b>Pad and pen holder metal</b> <b>Dimensions (WxDxH):</b> 140 x 20 x 0 mm <b>Weight:</b> 0,1 kg The clamp holder fixes documents and notepads and the integrated pen holder means a pen is always at hand.	801017807
		
	The basic tool holder, made from sturdy glass-fibre reinforced plastic is mounted without the need for tools with just one hand on the Sortimo wall and has been developed specially for the dynamic loads in the vehicle.	
	<b>Round holder for tools 80 side panel</b> <b>Dimensions (WxDxH):</b> 107 x 35 x 60 mm <b>Weight:</b> 0,05 kg Holder diameter is approx. 80 mm.	6000002429
		
	<b>Tool holder for pliers 61 side panel</b> <b>Dimensions (WxDxH):</b> 60 x 35 x 58 mm <b>Weight:</b> 0,03 kg Holder width is approx. 61 mm.	6000002430
		
	<b>Insertion tool holder side panel</b> <b>Dimensions (WxDxH):</b> 180 x 100 x 65 mm <b>Weight:</b> 0,27 kg The insertion tool holder is specially designed for the storage of screwdrivers, pliers and other tools. It can hold up to five tools (such as screwdrivers).	1000004279
		
<b>Multi-hook side panel</b> <b>Dimensions (WxDxH):</b> 100 x 38 x 46 mm <b>Weight:</b> 0,05 kg The multi-holder can be used universally. On its own it is suitable for mounting hammers, in combination with a second multi-holder and a ProSafe elastic cord (Art. No.: 1000002455), it can hold larger tools.		1000003921

SowaApp – always ready to hand

Clamps and hooks

The clamps and hooks, made from sturdy glass-fibre reinforced plastic, are designed precisely to suit the slotted holes in the Sortimo wall and can installed and removed using just one hand and without the need for tools. The hooks and clamps locate securely in height in the wall via two holes, and thus distribute the load evenly on the ground. The tool hooks, tool holders and tool clamps, and the Sortimo wall have been developed specially for the dynamic loads in the vehicle.

## Electrical accessories – everything in the right light

### Lights

To ensure that everything is properly lit, Sortimo also offers portable lamps in various versions alongside the work lamps. For frequent working directly at the vehicle we recommend mounting a stationary work lamp directly on the vehicle, so that it provides optimum illumination of the surroundings and so that work on the vehicle can take place independently of the light conditions. For flexible deployment, Sortimo offers the LED magnet portable lamp that can be mounted anywhere on the vehicle and which is powered from the cigarette lighter via a spiral cable.

### Sortimo - Experts in vehicle electronics

Profit from

- our decades of experience with vehicle electronics
- our qualified and regularly trained technical personnel
- our product range which is carefully selected to meet the highest expectations
- compliance with all legally required tests and guidelines

The installation and removal of electronic components may only be performed by qualified technical personnel.

Electrical accessories – everything in the right light

Switches

Sortimo has various different versions of switches in their product portfolio - to suit the application in question. With the variants with integrated check lamp you can see at a glance whether the power supply is switched on or off, which is particularly useful when working with warning lamps. With the changeover and button switches, actuation of the button cause the power supply to be switched on or off, depending on the previous position of the switch. Therefore a switch can be positioned both on the tailgate as well as on the sliding doors and the light can always be controlled from any position.

Two-way switch round on/on  
Ref. No.: 6000000710

Product description		Ref. No.:
 <b>12 V on/off switch with orange indicator light</b> Suitable for body switch for beacons. <b>Voltage range:</b> 12 VDC <b>Mounting dimension:</b> Ø installation 12 mm	<b>Max. switch power:</b> 8 A <b>Connection:</b> three flat plug connections with 6.3 mm	801014906
 <b>On/off switch with round indicator light</b> Suitable for body switches for beacons. <b>Voltage range:</b> 12 VDC <b>Mounting dimension:</b> Ø installation 21 mm	<b>Max. switch power:</b> 20 A <b>Connection:</b> three flat plug connections with 6.3 mm	6000002918
 <b>Two-way switch round on/on</b> Suitable for light and two-way switching. <b>Voltage range:</b> 12 VDC <b>Mounting dimension:</b> Ø installation 21 mm	<b>Max. switch power:</b> 8 A <b>Connection:</b> three flat plug connections with 4.8 mm	6000000710
 <b>Push-button switch round off/on</b> Suitable for controlling the LED mounted light (Ref. No. 6000000547). <b>Voltage range:</b> 12 VDC <b>Mounting dimension:</b> Ø installation 21 mm	<b>Max. switch power:</b> 8 A <b>Connection:</b> two flat plug connections with 4.8 mm	6000000711
 <b>Switch taperound D=20</b> Suitable for two-way switch and round push-button switch. <b>Outside Ø:</b> 40 mm	<b>Inner Ø:</b> 20 mm	6000001305

Body and interior plug sockets

Sortimo offers various different body and interior plug sockets for diverse applications. This allows small electrical equipment to be charged and measuring instruments to be operated. But also for external use, Sortimo offers a spray-protected capability of using electrical equipment in the vehicle at the common European voltage of 230 V AC, using the CEE input socket.

Product description		Ref. No.:
 <b>12V standard plug for internal use small</b> <b>Dimensions (WxDxH):</b> 60 x 35 x 25 mm <b>Weight:</b> 0,02 kg Suitable for charging of testing and measuring devices with a small plug according to DIN ISO 4165. <b>Voltage range:</b> 12 VDC <b>max. load:</b> 16 A		801009981
 <b>12V Standard plug for internal use big</b> <b>Dimensions (WxDxH):</b> 77 x 34 x 53 mm <b>Weight:</b> 0,04 kg Suitable for charging electrical equipment in the vehicle via the cigarette lighter. <b>Voltage range:</b> 12 VDC <b>max. Belastung:</b> 16 A Eingangsbuchse wird durch Gummiverschluss vor Staub oder Spritzwasser geschützt.		801005397
 <b>Power USB 2.0 fitting plug 12V 5V/3A</b> <b>Dimensions (WxDxH):</b> 110 x 45 x 35 mm <b>Weight:</b> 0,04 kg Suitable for all USB 2.0 plugs indoors. <b>Voltage range:</b> 12 VDC <b>max. load:</b> 3 A		6000003748
 <b>CEE external weather proof socket</b> <b>Dimensions (WxDxH):</b> 145 x 130 x 98 mm <b>Weight:</b> 0,31 kg Suitable for all CEE external weather proof sockets. <b>Voltage range:</b> 230 V AC <b>Connection:</b> 3-pin or 2-pin + PE <b>max. load:</b> 16 A for 6 h <b>Installation depth:</b> 82 mm <b>Protection rating:</b> IP 44 Protective flap with magnetic holder, eliminating mechanical strain on the electrical socket. Pull protection for CEE coupling.		80713643
 <p>The adapter cable used is a high quality rubber sheathed cable H07RN-F 3G with a core cross section of 2.5 mm². The line is IP44 spray protected and has a protected contact plug (plug type F) and a CEE coupling (3-pin). Suitable for a CEE external weather proof socket (Art. No. 80713643).</p> <b>Power adapter cable 230V CEE 1.5 m</b> <b>Dimensions (WxDxH):</b> 190 x 190 x 95 mm <b>Weight:</b> 0,56 kg The cable length is 1.5 m.		80713667
	<b>CEE-cable 230v (10 m) for L-BOXX power distribution unit</b> <b>Dimensions (WxDxH):</b> 320 x 360 x 60 mm <b>Weight:</b> 2,21 kg The cable length is 10 m.	121018130

Sockets

Even the selection of the correct socket rail or the matching power distributor involves consideration of many different aspects, and large differences must be taken into account. We therefore recommend being clear, in advance, about the application in order then to be able to make the correct decision about the design and various different functionalities. Sortimo offers a wide range of various different options, depending on the requirement.

Product description		Ref. No.:

The energy distributor for the professional

The energy distributors with insulation monitor for working within and outside the vehicle comply with DGUV and offer the highest level of safety in professional use. Having just a single drilled hole and one input line, we create a full-fledged workplace in your vehicle, offering the utmost flexibility and maximum safety, thus saving time and money.

Electrical accessories – everything in the right light

Inverter

The inverter generates 230 V AC from the 12 V on-board power, thus also permitting the operation of electrical equipment in the vehicle on the road. All Sortimo inverters are input side protected against reverse voltage, over voltage and under voltage, and on the output side are protected from short-circuiting, overload and over-temperature. Installation and use in or outside the vehicle is only allowed after testing and compliance with the required intended purpose.

Product description		Ref. No.:	
	<b>AC inverter 300</b> Suitable for smaller electrical equipment, such as laptops, TVs, tablets, smartphones. Input voltage: 12 - 15 VDC	Output voltage: 230 VAC +/- 5% Output power: 300 W Peak power: 600 W (briefly)	<b>80714893</b>
	<b>AC inverter 350</b> Suitable for smaller electric equipment, such as laptops, TVs, smartphones, tablets and chargers for cordless tools. Input voltage: 10 - 15.5 VDC	Output voltage: 230 VAC 50 Hz Output power: 350 W Peak power: 700 W (briefly)	<b>501011517</b>
	<b>AC inverter 700</b> Suitable for laptops, smartphones, tablets and tools up to 600 Watt. Input voltage: 10 - 15.5 VDC	Output voltage: 230 VAC 50 Hz Output power: 700 W Peak power: 1230 W (briefly)	<b>6000000755</b>
	<b>AC inverter 1000</b> Suitable for cooling and freezing equipment up to 140 Watt and tools up to 800 Watt. Input voltage: 10 - 15.5 VDC	Output voltage: 230 VAC 50 Hz Output power: 1000 W Peak power: 2000 W (briefly)	<b>801014816</b>
	<b>AC inverter 1500</b> Suitable for pumps up to 1200 Watt, air conditioners up to 900 Watt and tools up to 1400 Watt. Input voltage: 10 - 15.5 VDC	Output voltage: 230 VAC 50 Hz Output power: 1500 W Peak power: 3000 W (briefly)	<b>6000001007</b>
	<b>AC inverter 2000</b> Suitable for compressors up to 900 Watt and electric tools up to 2000 Watt. Input voltage: 10 - 15.5 VDC	Output voltage: 230 VAC 50 Hz Output power: 2000 W Peak power: 3500 W (briefly)	<b>6000002831</b>

Pre-assembled cable looms for connecting an inverter to the vehicle battery. Ends of the cables are already provided with cable lugs on one end.  
Fuse: 250 A    Earth line: 1 m    Connection line: 2.5 m  
Cable lug on inverter already crimped, additional crimp cable lugs are included.

	<b>Cable attachment kit 700 25 mm²</b> Suitable for AC inverter 700.	<b>6000000999</b>
	<b>Cable attachment kit 1000 35 mm²</b> Suitable for AC inverter 1000.	<b>6000001000</b>
	<b>Cable attachment kit 1500 50 mm²</b> Suitable for AC inverter 1500.	<b>6000001001</b>
	<b>Cable attachment kit 2000 70 mm²</b> Suitable for AC inverter 2000.	<b>6000002832</b>

Product description		Ref. No.:
	<b>Remote control for inverter 700 - 2000</b> Practical remote control with on/off control and warning light for the "ON" function. Suitable for AC inverters 700, 1000, 1500 and 2000.	<b>6000003495</b>

Safety and first aid – for any eventuality

First Aid

The Sortimo First Aid BOXes are useful aids in an emergency. The integrated small component inserts means that the dressings are clearly laid out, they are easy to see and are quickly to hand if required. This helps you to stay calm and retain your composure even in difficult situations.

Safety and first aid – for any eventuality

Beacons

The Sortimo beacons raise awareness in the danger area and thus increase safety in deployment both during the day and at night. The yellow flashing light is used specially to warn about hazards (see § 38 StVO). Sortimo offers various different options for construction - fixed in the vehicle, installation on a plug base or telescopic masts and, for flexible use, fixing by magnetic holder.

Product description	Ref. No.:
 <b>LED beacon, yellow 10-30 V fixed installation</b> <b>Dimensions (WxDxH):</b> 155 x 155 x 185 mm <b>Weight:</b> 0,8 kg <b>Operating voltage:</b> 10-30 VDC <b>Protection rating:</b> IP 67 <b>Diameter:</b> 154 mm Complies with the stipulations of ECE R65 E04 006598 and ECE R10-04. <b>Fixing:</b> Fixed installation on the vehicle roof (form B1 in accordance with DIN 14620) <b>Operating temperature:</b> -40 to +70 °C <b>Number of double flashes:</b> 120 per minute <b>Height:</b> 141 mm	<b>6000002369</b>

Thanks to the inset boxes of **height 31 mm**, the respective intermediate partitions for cases, L-BOXXes and T-BOXXes can be filled, thereby allowing safe storage and transportation of small components on two levels.

The inset boxes with a **height of 63 mm** fit in all cases and BOXXes and can be subdivided further with dividers as of a grid size of 1x2. This height is ideal for sorting your small components and consumables and increasing organisation.

The inset box **height of 95 mm** was developed specifically for the L-BOXX 136 G4, the Metal case KM 330 and the drawer height 8 and higher. The inset boxes can be subdivided as desired with dividers. They can safely store large quantities of small components as well as larger consumables.

Preconfigured insetboxes sets can be found with the respective BOXX or case.

The **inset box height of 95 mm** was developed specifically for the L-BOXX 136 G4, the Metal case KM 330 and the drawer height 8 and higher. The inset boxes can be subdivided as desired with dividers. They can safely store large quantities of small components as well as larger consumables.

Cases & BOXXes

- Individual labelling of cases and BOXXes as well as inset boxes and dividers
- Enables quick access thanks to tidy organisation
- Simplifies and accelerates the refilling process
- Creates order in the vehicle and in the interior of cases and BOXXes

More tips for increasing productivity can be found on page 24

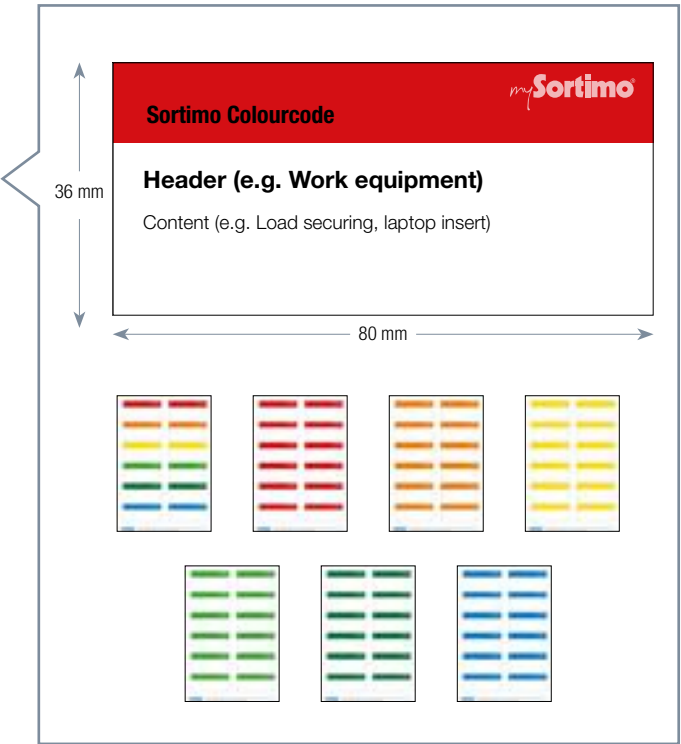

- Free PDF labelling template to download
- With colour coding for visual marking and differentiation
- Tear-resistant, moisture-resistant and excellent adhesion properties
- Actively helps to maintain order and prevents superfluous and unnecessary storage of inventory in the vehicle

Organisation of the materials by type, purpose or category. Sortimo offers optimal help for this:

Colourcode	Header	Subhead
	<b>Fastening technique</b>	Wall plugs, screws, washers, circlips, nuts, rivets, pipe clamps, cable clamps, etc.

The sturdy case for everyday use.

## Metal case

Simplified working through  
one-handed operation

Interior with customised  
subdivision

Integration in all Sortimo trans-  
port solutions possible

Foam insert in the lid prevents  
mixing of small parts

**Metal case** – The sturdy case for everyday use.

# The Metal case

The legendary Metal case from Sortimo – a classic developed further since 1973. Coming in four different sizes, it offers the ultimate in work convenience for various fields of use.

## Metal case KM (small components case)

The Metal case (KM) has an inset box set that makes it possible to store small parts tidily and allow quick access to them. The layout of the inset boxes can be rearranged as required, it is also possible to remove individual inset boxes. Sortimo also offers adhesive labels in various colours for individual labelling.

from page 132

## Metal case WM (tool case)

The Metal case (WM) allows free positioning of dividers for individual subdivision of the interior for safe storage and transport of parts and electric tools. The dividers come in predefined sets, but also allow individual combination for your own configuration.

from page 136

## Metal case DM (dual case)

The Metal case (DM) combines the advantages of a small parts case with inset boxes and tool case with dividers, thus making it possible to store and transport small parts and tools safely in just one case.

from page 140

## Metal case DK (nozzle case)

The Metal case (DK) with foam insert is designed specifically for heating burner nozzles. It is the ideal solution for safe and protected transport of burner nozzles and lets you see immediately when the stock levels start to fall.

## T-BOXX G hook-in adapter

Product description		Ref. No.
 	<b>T-BOXX G Hook-in adapter SET</b> <b>Dim. (WxDxH):</b> 215 x 155 x 30 mm <b>Weight:</b> 0,30 kg The T-BOXX G hook-in adapter for securing a T-BOXX G to the Sortimo perforated aluminium grid or to a flat surface.	6000011351

Tool tray inserts – High-quality tool sets from Gedore.

The tool tray insert can be integrated optimally in the T-BOXX G and the Metal case WM 320. The format of the insert corresponds to the Sortimo inset box grid 3x6 and 6x6 and can thus be combined optimally with inset boxes. The tools are transported safely and tidily in the foam insert. Furthermore, it is in two colours so that you can immediately see if tools are missing. The material of the insert is resistant to oils and greases, and is easy to clean with water.

The stacking champion for all-rounders.

# L-BOXXes G/G4

Click system for secure transport

Safety through integration in  
Sortimo van racking systems

Organisation by means of label  
with colour code

Anti-theft protection also with  
interconnected G4 L-BOXXes

## L-BOXXes G/G4 – The stacking champion for all-rounders.

### Insetboxes

Thanks to the inset box grid on the bottom of the L-BOXX 102 G4 and L-BOXX 136 G4, inset boxes can be arranged individually and removed at any time when needed. Small components are transported safely and stock levels can be seen at all times. The inset boxes can also be integrated in the L-BOXX 238 G and L-BOXX 374 G using an intermediate partition.

from page 153

### Mobility

Sortimo offers a range of transport options to optimise trips to work - naturally tailored to meet everyday needs. The BOXX range with mobility solutions not only saves time, but also increases efficiency when it comes to the transport of tools and materials. Stowed safely in the vehicle for an easy trip to the place of use.

from page 51

### L-BOXX inserts

To meet the daily challenges in the transport and storage of materials, Sortimo offers a range of inserts with which the L-BOXX G/G4 can be adapted to individual requirements. Sortimo thus offers the ideal storage solution and optimises work procedures for various applications.

from page 160

### Dividers

The many different divider combination possibilities offer the optimum in order and organisation. That allows effective work while simultaneously protecting the contents. Larger tools and work utensils are transported safely and stored tidily. The dividers are available individually or in a preconfigured set.

from page 156

### Tool storage

Tool modules enable tidy and structured storage of tools. Sortimo offers solutions for the interior as well as for the side tool cards on the outer side walls. This guarantees quick access and makes work procedures even more efficient, resulting in an immense saving of time in your routine daily work.

from page 166

### Worktop

The work tops can be fastened to the BOXX lids quickly and easily to convert the L-BOXX G/G4 to a mobile workplace for minor adaptations at the work site. Sortimo offers a choice of four different work tops.

from page 172

L-BOXXes G/G4 – The stacking champion for all-rounders.

L-BOXXes empty

The practical L-BOXXes of shock and impact-resistant ABS plastic are available in four different sizes that are compatible to each other. The BOXXes can be equipped individually as required with inset boxes, dividers and various inserts.

	<b>Tool card 1 L-BOXX G4</b>	1000011120
	Dim. (WxDxH): 374 x 306 x 10 mm Weight: 0,29 kg L-BOXX 238 G with divider set (4 dividers) and tool card 2 in the lid.	
	<b>Tool card 2 L-BOXX G4 3-sided</b>	1000011322
	Dim. (WxDxH): 371 x 306 x 30 mm Weight: 0,91 kg The tool card can be equipped from 3 sides and is mounted in the lid. The rubber loops and pockets provide optimum storage options for tools such as screwdrivers, pliers, etc.	
	<b>Tool card 3 side wall set for the L-BOXX 238 G</b>	6000002063
	Dim. (WxDxH): 312 x 163 x 30 mm Weight: 0,49 kg Storage options for measuring tapes, screwdrivers, etc. on the side of the L-BOXX 238 G and LT-BOXX G 272.	
	<b>Tool card side wall set 4 for the LS-BOXX 306 G</b>	6000002064
	Dim. (WxDxH): 312 x 229 x 30 mm Weight: 0,78 kg Storage options for hammers, measuring tapes, screwdrivers, etc. on the side of a LS-BOXX 306 G.	
	<b>Tool card 5 side wall set for the L-BOXX 374 G</b>	6000002065
	Dim. (WxDxH): 312 x 296 x 30 mm Weight: 0,87 kg Storage options for hammers, measuring tapes, screwdrivers, etc. on the side of a L-BOXX 374 G.	

L-BOXXes G/G4 – The stacking champion for all-rounders.

AluCaddy foldable

Product description		Ref. No.
	<b>AluCaddy foldable</b> <b>Dim. (WxDxH):</b> 490 x 490 x 1.090 mm <b>Weight:</b> 6,0 kg The foldable AluCaddy allows you to transport your BOXXes and bulky cargo effortlessly and more efficiently to your desired place of operation. The AluCaddy, with a bearing load of 150 kg, is a practical aid for the daily transport of your materials.	801014905
	<b>Fixation set AluCaddy foldable</b> <b>Dim. (WxDxH):</b> 317 x 28 x 54 mm <b>Weight:</b> 0,75 kg The fixing kit secures the BOXXes tower to the AluCaddy using the ProSafe clamping strap (included in the kit).	1000001838
	<b>Wall fixation AluCaddy</b> <b>Dim. (WxDxH):</b> 504 x 53 x 61 mm <b>Weight:</b> 1,2 kg The wall mount can, for example, be mounted on the rear door and serves for safe mounting of the collapsed AluCaddy in the vehicle.	1000004391

ProSafe adapter plate

Product description		Ref. No.
	<b>Adapter plate ProSafe 20-36 L-BOXX</b> <b>Dim. (WxDxH):</b> 612 x 462 x 30 mm <b>Weight:</b> 4,0 kg The Adapter plate ProSafe ensures the secure transport of multiple, stacked L-BOXXes up to a total height of 36 grids (= 612 mm). L-BOXXes must also be secured using a lashing strap for each adapter plate used.	1000000623
	<b>Adapter plate ProSafe 20-54 L-BOXX</b> <b>Dim. (WxDxH):</b> 918 x 462 x 30 mm <b>Weight:</b> 6,0 kg The Adapter plate ProSafe ensures the secure transport of multiple, stacked L-BOXXes up to a total height of 54 grids (= 918 mm). L-BOXXes must also be secured using a lashing strap for each adapter plate used.	1000000624

## L-BOXXes G/G4 – The stacking champion for all-rounders.

### L-BOXX trolley

Product description		Ref. No.
 	<b>L-BOXX trolley</b>	121015412
	<b>Dim. (WxDxH):</b> 650 x 510 x 150 mm <b>Weight:</b> 3,91 kg Transports the entire L-BOXX family comfortably as interconnected unit. Low net weight, high loading capacity (up to 100 kg) and four wheels (two of which are lockable) ensures easy manoeuvring in narrow spaces and minimal work trips.	
 	<b>Fixation strap trolley L-BOXX</b>	121015519
	<b>Dim. (WxDxH):</b> 2.500 x 25 x 0 mm <b>Weight:</b> 0,5 kg Provides for additional securing of the L-BOXXes or freight on the L-BOXX trolley.	
 	<b>Retaining plate trolley L-BOXX G</b>	1000011086
	<b>Dim. (WxDxH):</b> 506 x 200 x 38 mm <b>Weight:</b> 0,72 kg Stores the L-BOXX G trolley quickly and securely in the vehicle. Integrated rubber stoppers prevent annoying rattling noise when driving.	

### L-BOXX retainer seat bench

Product description		Ref. No.
 	<b>L-BOXX fixation for seat bench G</b>	1000011087
	<b>Dim. (WxDxH):</b> 470 x 369 x 45 mm <b>Weight:</b> 2,0 kg Enables the secure transport of L-BOXXes in the vehicle. The safety belt ensures a secure attachment of the holder - the BOXXes are secured in the holder via a lashing strap.	

### L-BOXX seat cushion

Product description		Ref. No.
 	<b>Seat cushion for lid L-BOXX</b>	121015436
	<b>Dim. (WxDxH):</b> 328 x 225 x 24 mm <b>Weight:</b> 0,09 kg The two-part seat cushion made of soft foam transforms every L-BOXX into a comfortable seating arrangement.	

### L-BOXX holder ProSafe

Product description		Ref. No.
 	<b>L-BOXX holder ProSafe</b>	1000001773
	<b>Dim. (WxDxH):</b> 115 x 52 x 20 mm <b>Weight:</b> 0,45 kg Secure individual L-BOXXes or in combination between the two ProSafe holders. Furthermore, the BOXXes can be secured with the ProSafe lashing strap, which can be directly hooked into the ProSafe L-BOXX holder. The lashing points have a resilience of up to 200 daN.	

### Tool mats

The soft tool mat made of rubber not only protects the contents, but also the L-BOXX itself against damage and prevents annoying rattling noise during transit.

Description	Dim. (WxDxH) / Weight	Product description	Ref. No.
<b>Tools mat L-BOXX 102/136 G4</b>	Dim.: 416 x 307 x 2 mm Weight: 0,10 kg	Suitable for the L-BOXX 102 G4 and L-BOXX 136 G4.	6000010972
<b>Anti-rattle mat for the L-BOXX 238 G</b>	Dim.: 380 x 300 x 2 mm Weight: 0,08 kg	Suitable for the L-BOXX 238 G.	121015733
<b>Anti-rattle mat for the L-BOXX 374 G</b>	Dim.: 380 x 290 x 4 mm Weight: 0,08 kg	Suitable for the L-BOXX 374 G.	121015734

L-BOXXes G/G4 – The stacking champion for all-rounders.

L-BOXX work tops

The work tops can be fastened to the BOXX lids quickly and easily to convert the L-BOXX to a mobile workplace for minor adaptations at the work site. The work tops come in four different variants.

Product description		Ref. No.
	<b>Large L-BOXX Work top</b> <b>Dim. (WxDxH):</b> 1.400 x 700 x 18 mm <b>Weight:</b> 14,0 kg The large L-BOXX Work top is attached flexibly to the L-BOXX family via an engagement mechanism. This results in a mobile work place, based on top of two BOXXes towers, which is optimum for use in doing smaller adjustment work directly at your place of operation.	1000001303
	<b>Small L-BOXX Work top</b> <b>Dim. (WxDxH):</b> 500 x 700 x 18 mm <b>Weight:</b> 4,5 kg Divider frames – in combination with dividers and slotted dividers – provide organisation options for the BOXX via various large compartments. For the LS-BOXX 306 G, you can use dividers from the L-BOXX G4 series.	1000001369
	<b>Worktop for L-BOXX G, two pieces</b> <b>Dim. (WxDxH):</b> 228 x 328 x 30 mm <b>Weight:</b> 1,97 kg Two-part worktop made from high quality beech-Multiplex (14 mm thickness) for smaller tasks directly on site.	121017994
	<b>Worktop for L-BOXX G, one-piece</b> <b>Dim. (WxDxH):</b> 440 x 350 x 18 mm <b>Weight:</b> 1,27 kg Worktop made from high quality beech-Multiplex (18 mm thickness) for smaller tasks directly on site.	121017995
	<b>Screw clamp 160</b> <b>Dim. (WxDxH):</b> 208 x 81 x 22 mm <b>Weight:</b> 0,32 kg Screw clamp with span of 160 mm to fasten workpieces.	6000002539

Suitable for L-BOXXes G/G4,  
LS-BOXX 306 and i-BOXX Rack.

The flexible all-rounder for every trade.

# LS-BOXX 306 G

Combination of consumables  
and tools

Adaptable to every  
requirement

Stability thanks to robust and  
hard-wearing construction

Colour-coded adhesive labels  
for tidy organisation

LS-BOXX 306 G – The flexible all-rounder for every trade.

The mobile workplace for workshop and building site

# WorkMo

**MULTIFUNCTIONALITY**  
organising, transporting,  
working

**MODULARITY**  
combination in accordance  
with demand

**DIVERSITY**  
Application range from the  
workshop to the building site

**COMPATIBILITY**  
with the Sortimo BOXxes  
programme

## WorkMo – at a glance

WorkMo is a multi-functional transport, organisation and working system. The individual modules can be combined flexibly to suit the application. Comprehensive accessories are used to create application-oriented and transportable workplaces for the workshop and the building site. The WorkMo is made unique by its compatibility with the Sortimo BOXXes programme. Various organisational solutions offer storage space for small parts and tools of all kinds. Diverse BOXX partnerships with suppliers of power tools and electric tools and mounting and fastening materials mean that complete system compatibility is a given. Click, couple, everything fits together - you can't get more productive!

# WorkMo – 24-500

Dimensions (WxDxH): 396 x 526 x 506 mm    Maximum cover load: 100 kg    Maximum resilience: 100 kg

The modules of size 24-500 are the most compact in the WorkMo family. They are therefore suited to frequent transport and variable combination as a result of their low weight. The wide range of options with drawers, BOXXes, cases or a universal cabinet offer solutions for diverse applications. The modules can be coupled together to, for example, combine two modules with accessories, such as a tool shelf, worktops or work-tables to produce a mobile workplace. Mobility solutions, such as rollers, roller skids or the aluminium caddy make the WorkMo a mobile unit.

 Rollers can be found on page 212

# WorkMo – 24-750

Dimensions (WxDxH): 386 x 526 x 744 mm    Maximum cover load: 100 kg    Maximum resilience: 100 kg

The WorkMo 24-750 is the same width as the 25-500 but 250 mm higher. This obviously offers benefits in terms of storage. Many configurations with drawers, BOXXes, cases, universal cabinets and shelves facilitate diverse applications. A working height of about 90 cm is available when using a module in combination with a roller or the roller skids. Complemented with accessories, such as a tool shelf, worktops or benches and various side panel accessories, this creates a fully-fledged mobile workplace for use in the workshop or on site.

Mobile workstation

Roller – Flexible and high-load

You can make your WorkMo mobile by using the roller made from beech Multiplex. The fully rubberised wheels (2 of which have brakes) are sturdy and ensure quiet movement, even on rough ground. They are connected to the WorkMo by a coupling lever. The flat surface, in combination with integrated lashing points and the load-bearing capacity of up to 200 kg also allows its use as a transport roller.

Roller

Product	Technical Data	Suitable for ...	Ref. No.
Roller WorkMo 24	Dimension: 612 x 493 x 144 mm Weight: 6,54 kg	WorkMo modules sizes 24-500 and 24-750.	1000003706
Roller WorkMo 34	Dimension: 854 x 493 x 144 mm Weight: 8,94 kg	WorkMo modules sizes 34-500 and 34-750.	1000003707
WorkMo roller board 44	Dimension: 1.096 x 493 x 144 mm Weight: 10,0 kg	WorkMo modules sizes 44-500 and 44-750	1000003708

Additional accessories for load-securing starting on page 78

Product description	Ref. No.
 <p><b>Wall fixation roller WorkMo</b> <b>Dimensions (WxDxH):</b> 270 x 97 x 254 mm <b>Weight:</b> 1,5 kg Installation on the van racking system or bodywork. Secure storage of all WorkMo rollers in the vehicle.</p>	1000003963

Roller skids – Always mobile

The WorkMo is permanently mobile with the roller adapter. Once mounted the WorkMo can be permanently rolled. The roller skid is compatible with all WorkMo modules. Two of the wheels can be locked, ensuring stability under load while working.

Labels on page 26

Product description		Ref. No.
	<b>Roller adapter WorkMo</b>	6000002992
	<b>Dimensions (WxDxH):</b> 546 x 145 x 108 mm	
	<b>Weight:</b> 2,56 kg	
	Continuous mobility for WorkMo. Suitable for all WorkMo modules. Load capacity up to 150 kg.	

AluCaddy – Compact and flexible

Product description		Ref. No.
	<b>AluCaddy foldable</b>	801014905
	<b>Dimensions (WxDxH):</b> 490 x 490 x 1.090 mm <b>Weight:</b> 6,0 kg The WorkMo modules can be transported conveniently using the folding AluCaddy. The AluCaddy, with a bearing load of 150 kg, is a practical aid for the daily transport of materials.	
	<b>Fixation set AluCaddy foldable</b>	1000001838
	<b>Dimensions (WxDxH):</b> 317 x 28 x 54 mm <b>Weight:</b> 0,75 kg The fixing set can be used to secure the WorkMo onto the AluCaddy with the ProSafe lashing strap included in the kit.	
	<b>Wall fixation AluCaddy</b>	1000004391
	<b>Dimensions (WxDxH):</b> 504 x 53 x 61 mm <b>Weight:</b> 1,2 kg The wall mount can, for example, be mounted on the rear door and serves for safe mounting of the collapsed AluCaddy in the vehicle.	
	<b>Suspension adapters AluCaddy foldable</b>	6000003363
	The hook-in adapter for the AluCaddy can be hooked into the back of frequently transported cargo. The cargo is simply fastened by means of inserting the adapter into the grooves of the - AluCaddy.	

Worktable – Convenient working like in the workshop

Clamping devices starting  
on page 220

WorkMo work tables provide modular and mobile work benches – for safe and comfortable work any where you are. The tables are suitable for WorkMo combinations of 2 x 24-500 or 1 x 24-750 on a roller or roller skids. Depending on the application, there are two sizes to choose from, each with two versions (with and without system perforation). The tables with system perforation (20 mm) have a full border made from aluminium profile, which also offers additional possibilities for fixing work pieces.

Product	Technical Data	Description	Ref. No.
Work table WorkMo	Dimension: 648 x 1.451 x 18 mm Weight: 8,75 kg	Enclosed work area. Large work area	1000003700
Worktable WorkMo perforated	Dimension: 648 x 1.451 x 19 mm Weight: 24,6 kg	With system perforation (20 mm). Continuous aluminium profile. Large work area.	1000003701
Worktable short WorkMo	Dimension: 1.002 x 648 x 39 mm Weight: 10,0 kg	Enclosed work area. Compact size	1000010601
Worktable short WorkMo perforated	Dimension: 881 x 714 x 41 mm Weight: 8,5 kg	With system perforation (20 mm). Continuous aluminium profile. Compact size.	1000010602

Product description		Ref. No.
	<b>Worktable extension WorkMo</b> <b>Dimensions (WxDxH):</b> 1.078 x 280 x 1.017 mm <b>Weight:</b> 7,8 kg Expansion of the work surface for perforated worktops. Can be mounted at any position on the aluminium profile.	1000004182
	<b>Intermediate table WorkMo 500</b> <b>Dimensions (WxDxH):</b> 484 x 974 x 32 mm <b>Weight:</b> 6,5 kg Intermediate shelf for the WorkMo worktop. Suitable for workstations consisting of 2 WorkMo modules 24-500.	1000003992
	<b>Intermediate table WorkMo 750</b> <b>Dimensions (WxDxH):</b> 975 x 484 x 32 mm <b>Weight:</b> 6,5 kg Intermediate level for the WorkMo worktop. Suitable for workstations that are integrated with a WorkMo 24-750.	1000004398
	<b>Transport set worktable WorkMo</b> <b>Dimensions (WxDxH):</b> 526 x 124 x 112 mm <b>Weight:</b> 1,8 kg Complete set for the transportation of the worktop to a workstation. Suitable for WorkMo combinations 2 x 24-500 or 1 x 24-750. Cannot be combined with roller skids.	1000003775
	<b>Storage IB D3 alum. Profile WorkMo</b> <b>Dimensions (WxDxH):</b> 160 x 130 x 65 mm <b>Weight:</b> 0,34 kg Storage shelf for hanging onto the continuous aluminium profile of the work table. Provides space for inset box combinations up to size 2 x 3. Small parts from cases and BOXXes are easily accessible for work.	1000004189
	<b>Storage IB G3 alum. Profile WorkMo</b> <b>Dimensions (WxDxH):</b> 67 x 316 x 127 mm <b>Weight:</b> 0,7 kg Storage shelf for hanging onto the continuous aluminium profile of the work table. Provides space for inset box combinations up to size 2 x 6. Small parts from cases and BOXXes are easily accessible for work.	1000004188

## Worktop – Work where and when you want to

The worktop made from high quality beech-Multiplex provides an ideal work surface for both general and delicate tasks. The panels can be attached to the top surface of the WorkMo using an engagement mechanism and can be removed again using a handle. The perforated arrangement permits a wide range of attachment options when machining workpieces.

### WorkMo worktops

Product	Technical Data	Suitable for ...	Ref. No.
<b>Worktop without perforation WorkMo 24</b>	Dimension: 426 x 571 x 41 mm Weight: 3,91 kg	...all WorkMo Modules 24-500 and 24-750.	1000003697
<b>Worktop with perforation WorkMo 24</b>	Dimension: 571 x 426 x 41 mm Weight: 3,57 kg	...all WorkMo Modules 24-500 and 24-750. With system perforation (20 mm).	1000003696
<b>Work top WorkMo 34</b>	Dimension: 426 x 834 x 41 mm Weight: 5,1 kg	...all WorkMo Modules 34-500 and 34-750.	1000003698

<b>Work top WorkMo 44</b>	Dimension: 426 x 1.097 x 41 mm Weight: 6,3 kg	...all WorkMo Modules 24-500 and 24-750.	1000003699

Product description	Ref. No.
  <b>Worktop side wall WorkMo 04-500</b> <b>Dimensions (WxDxH):</b> 314 x 346 x 27 mm <b>Weight:</b> 0,75 kg With system perforation (20 mm). Suitable for the side panels of all WorkMo modules; height: 500.	1000003710

  <b>Worktop rear wall WorkMo 20-500</b> <b>Dimensions (WxDxH):</b> 456 x 571 x 78 mm <b>Weight:</b> 3,58 kg With system perforation (20 mm). Suitable for the rear panel of all WorkMo modules 24-500.	1000003709
---	------------

  <b>Worktop side wall WorkMo 04-750</b> <b>Dimensions (WxDxH):</b> 552 x 27 x 346 mm <b>Weight:</b> 1,4 kg With system perforation (20 mm). Suitable for the side panels of all WorkMo modules; height: 750.	1000004366
---	------------

  <b>Worktop rear wall WorkMo 20-750</b> <b>Dimensions (WxDxH):</b> 78 x 572 x 685 mm <b>Weight:</b> 6,4 kg With system perforation (20 mm). For the rear panel of all WorkMo modules 24-750.	1000004365
---	------------

Clamping devices – Holding without compromise

Product description		Ref. No.
	<b>Stop pin 25 mm</b> <b>Dimensions (WxDxH):</b> 2 x 2 x 25 mm <b>Weight:</b> 0,03 kg Suitable for system perforation of worktops and tabletops. Flexible position stop for work pieces.	6000002973
	<b>Locating pin 65 mm</b> <b>Dimensions (WxDxH):</b> 2 x 2 x 65 mm <b>Weight:</b> 0,08 kg Suitable for system perforation of worktops and tabletops. Flexible position stops for work pieces.	6000002974
	<b>Screw clamp 160</b> <b>Dimensions (WxDxH):</b> 208 x 81 x 22 mm <b>Weight:</b> 0,32 kg Screw clamp with span of 160 mm to fasten work pieces. Can be used in the system perforation & aluminium profiles of worktops with perforations.	6000002539
	<b>Flat clamp AP WorkMo</b> <b>Dimensions (WxDxH):</b> 257 x 116 x 46 mm <b>Weight:</b> 0,45 kg Simple and easy clamping. Suitable for all worktops and tabletops with system perforation.	6000002697

Tool shelf – Make a workshop trolley without any trouble

Product description		Ref. No.
	<b>Tool tray WorkMo 24-6</b> <b>Dimensions (WxDxH):</b> 364 x 520 x 103 mm <b>Weight:</b> 0,4 kg Flexibly connected with WorkMo. Can be organised by dividers. Resistant to most solvents, oils and fuels.	1000004390
	<b>Divider short tool tray WorkMo</b> <b>Dimensions (WxDxH):</b> 328 x 8 x 69 mm <b>Weight:</b> 0,1 kg Subdivides the tool shelf in width. Compatible with the existing inset box compartments.	1000004487
	<b>Divider long tool tray WorkMo</b> <b>Dimensions (WxDxH):</b> 457 x 8 x 65 mm <b>Weight:</b> 0,13 kg Subdivides the tool shelf in depth. Compatible with the existing inset box compartments.	1000004488

Side panel accessories – For even more benefits

Product description	Ref. No.
 <p><b>Storage pocket 04-7 WorkMo</b> <b>Dimensions (WxDxH):</b> 352 x 132 x 103 mm <b>Weight:</b> 0,38 kg Additional storage options for the WorkMo side panel. Integrated tool clamping rail for storing screwdrivers, pliers, etc.</p>	1000010102

 <p><b>Storage pocket for paperwork WorkMo</b> <b>Dimensions (WxDxH):</b> 157 x 210 x 74 mm <b>Weight:</b> 0,41 kg Document storage for the WorkMo side panel. Suitable for documents up to DIN A4.</p>	1000010103
--	------------

 <p><b>Big storage pocket 04-7 WorkMo</b> <b>Dimensions (WxDxH):</b> 356 x 252 x 115 mm <b>Weight:</b> 1,12 kg Provides additional storage in your WorkMo side panel. Load capacity up to 5 kg.</p>	1000010104
--	------------

Product description	Ref. No.
 <p><b>Storage shelf side wall 14-9 WorkMo</b> <b>Dimensions (WxDxH):</b> 353 x 229 x 151 mm <b>Weight:</b> 1,75 kg Additional storage shelves for the WorkMo side panel. Incl. rubber protection mat.</p>	1000003962
 <p><b>Electric power supply 4-way WorkMo</b> <b>Dimensions (WxDxH):</b> 396 x 526 x 506 mm <b>Weight:</b> 1,02 kg 4-part distributor socket with a 2-metre connection line Including cable hooks. Protection class IP44.</p>	1000003774
 <p><b>Hook strip 04 WorkMo</b> <b>Dimensions (WxDxH):</b> 355 x 80 x 51 mm <b>Weight:</b> 0,77 kg Quick access to work materials. Load capacity up to 12 kg.</p>	1000010105
 <p><b>Clamping strip for tools 04-3 WorkMo</b> <b>Dimensions (WxDxH):</b> 355 x 55 x 37 mm <b>Weight:</b> 0,21 kg Tools such as screwdrivers, pliers, etc. are always close at hand on the WorkMo side panel.</p>	1000010106
 <p><b>Wall fixation WorkMo</b> <b>Dimensions (WxDxH):</b> 462 x 81 x 17 mm <b>Weight:</b> 0,25 kg Two-part bracket for hanging a WorkMo 24-500 or 24-750. Only for use in stationary areas - not for installation in the vehicle.</p>	1000003803

Perforated aluminium grid – Interface for even more accessories

Perforated aluminium grids

Product	Technical Data	Suitable for ...	Ref. No.
Perforated aluminium grid WorkMo 500	Dimension: 14 x 243 x 249 mm Weight: 0,15 kg	Interface for additional accessories. Easy to hook into the WorkMo side panel. Suitable for all WorkMo modules height 500.	1000003705
Perforated aluminium grid WorkMo 750	Dimension: 487 x 243 x 14 mm Weight: 0,3 kg	Interface for additional accessories. Easy installation to the WorkMo side panel. Suitable for all WorkMo modules height 750.	1000004397

Product description		Ref. No.
 	<b>Hose holder</b> <b>Dimensions (WxDxH):</b> 206 x 192 x 111 mm <b>Weight:</b> 0,31 kg Easy installation by suspending from the perforated aluminium grid. Ideal for hoses, lines and much more.	801010976
 	<b>Silicone cartridge holder 53 side panel</b> <b>Dimensions (WxDxH):</b> 136 x 66 x 87 mm <b>Weight:</b> 0,1 kg Internal diameter is 53 mm.	1000003924
 	<b>Foam cartridge holder 73 side panel</b> <b>Dimensions (WxDxH):</b> 125 x 88 x 89 mm <b>Weight:</b> 0,11 kg Internal diameter is 73 mm.	1000003925
 	<b>Storage pocket side panel for inset box 2x3</b> <b>Dimensions (WxDxH):</b> 153 x 64 x 114 mm <b>Weight:</b> 0,25 kg Suitable for inset boxes 2x3 or one inset box 1x2 and one inset box 2x2.	1000003926
 	<b>Insertion tool holder side panel</b> <b>Dimensions (WxDxH):</b> 180 x 100 x 65 mm <b>Weight:</b> 0,27 kg The insertion tool holder is specially designed for the storage of screwdrivers, pliers and other tools. It can hold up to five tools (such as screwdrivers).	1000004279

Flexible Load-Securing on the Vehicle Roof

# Sortimo TopSystem

Sturdy and corrosion-resistant thanks to high-quality stainless steel and aluminium components.

Easy load-securing due to the optional, integrated ProSafe lashing system.

Flexibly expandable with extensive accessories.

Time-saving and ergonomic loading and unloading of cargo.

# Sortimo TopSystem – Flexible Load-Securing on the Vehicle Roof

## Base Members

**Eco**

Cross members in standard version

**ProSafe**

Cross members with integrated ProSafe lashing system

First choose the appropriate base member for your vehicle (Eco or ProSafe) and extend this with our large program of accessories starting on page 245

**Side support cross member**

- extension for the base member
- side stopper for cargo
- flexible positioning

**Vehicle-specific side rail**

- extension for the base member
- adding the cross members creates additional stability
- lateral stopper for load
- aero-dynamic shape
- please consult the vehicle tables for the required length of the side rails

**Loading rollers**

- simplifies loading: load can be pushed from the back of the vehicle onto the TopSystem
- time-saving and ergonomic loading and unloading
- avoids damage to vehicle and load
- loadable up to 50 kg
- please consult the vehicle tables for the required measures of the appropriate loading rollers

## Your Advantages

- safe transport of long and bulky goods
- high load capacity due to low dead load
- aerodynamic shape lessens wind noise and saves fuel
- unique possibility of load securing with optionally integrated ProSafe lashing system
- flexibly expandable with versatile accessories
- corrosion-resistant and durable due to high quality stainless steel and aluminium components

## ProSafe

- **Integrated system**  
Versatile application on load-securing floors, in van racking systems, the Sortimo TopSystem, as well as in the original lashing points from the vehicle manufacturer.
- **One-stop shopping**  
Sortimo provides a complete system: lashing possibilities and appropriate accessories from a single source.
- **Easy and secure**  
Comfortable and fast usage saves time and guarantees a secure fixation of the load.

Sortimo TopSystem – Flexible Load-Securing on the Vehicle Roof

Product description		Ref. No.
	 <p><b>LED-Warning Beacon Yellow 10-30 V Magnetic Base</b> <b>Dim. (WxDxH):</b> 186 x 186 x 165 mm <b>Weight:</b> 1,39 kg</p> <p>The warning beacon magnetic holder set secures beacons magnetically.</p>	6000002371

Rear Ladder Lift

The rear ladder lift can bear a ladder weight of up to 51 kg. It lifts ladders conveniently onto the vehicle roof with the aid of pressure cylinders. There the lift locks audibly into the end position. The ladder is load-secured when it is folded. Therefore, the height poses no problem. As a result the user does not have to climb onto the roof in order to secure the ladder.

Description	Dim. (WxDxH) / Weight	Ref. No.
<b>Rear Ladder Lift 2500 mm</b>	Dim.: 2.600 x 480 x 155 mm Weight: 31,0 kg	1000000193
<b>Rear Ladder Lift 3000 mm</b>	Dim.: 3.100 x 480 x 155 mm Weight: 34,0 kg	1000000194

Sortimo TopSystem – Flexible Load-Securing on the Vehicle Roof

Ladder Side Lift

Advantages at a glance:

- time-saving and ergonomic loading and unloading of ladders
- space-saving, lateral access to the ladder, no space required behind the vehicle
- reliably prevents mistakes in load securing of ladders
- easily convertible to other ladder sizes

Product description	Ref. No.
 <p><b>Ladder Side Lift</b> <b>Dim. (WxDxH):</b> 1.876 x 328 x 156 mm <b>Weight:</b> 28,7 kg Lift for time-saving and ergonomic loading and unloading of your ladder.</p>	1000010570

 <p><b>U-Lock with a hard Plastic Coating</b> <b>Dim. (WxDxH):</b> 140 x 90 x 70 mm <b>Weight:</b> 1,13 kg Using the bracket lock, you can lock the side ladder lift and prevent unauthorised access to the ladder.</p>	6000002883
--	------------

Product Details

easy handling, system locks and secures the ladder automatically

rubber surfaces to lean ladder against

suitable for one-flight, two-flight or three-flight ladders; maximum length of ladder up to 1.5 times the length of the distance between the cross members of the TopSystem; the distance can vary from 1380 to 3000 mm

- up to 35 kg load
- flexible and simple assembly
- mountable on both sides
- weatherproof
- dead load only 20 kg
- suitable for vehicles with height of up to 2.0 m (e.g. MB Vito H1 & VW T6 H1)

Online configurator for vehicle decals

# mySortimo graphics

Simple to design without  
knowledge of graphics

Full cost control and available  
24 hours a day

Durability as a result of the  
use of high-quality films

One-stop shopping - everything  
from a single supplier

## mySortimo graphics – Online configurator for vehicle decals

Vehicle decals are a simple and very effective way of increasing the awareness of your company. Reach a large number of potential customers at a reasonable cost. Vehicle decals also represent a sensible addition to your other marketing activities and are a cost-effective sustainable alternative to newspaper advertising, posters and radio advertising. Decals last for many years if they are applied professionally. They mean that you can reach your target group over a long period without additional expenditure - especially if you are driving around in the region every day.

Your vehicle is your company's mobile visiting card and plays an important role in drawing your company to the attention of existing and potential customers and partners. Make the most of this potential for a professional presence and be noticed. Structure your personal vehicle decals right now, quickly and simply on the computer using the online mySortimo graphics configurator.

### Effective marketing

Leave an impression and get yourself noticed. A professional presence lets you reach potential customers every day and increase your turnover.

### Professional templates

Various templates to get you quickly started. Generate relevant designs quickly and simply without the need for specific knowledge of graphics.

### Full cost control

You will have the current price in view during the design process and you decide yourself how extensive your decals need to be and how much you want to invest.

### Everything from a single supplier

Benefit from the Sortimo complete service. Save time through reduced downtimes and head off to the next job with your personally branded vehicle.

Configure online & order directly at  
[www.mySortimo.com/graphics](http://www.mySortimo.com/graphics)

### Select the template

### Change the vehicle view

### Add your own graphics

### Edit the text

### Add shapes

### Retain an overview of costs

mySortimo graphics – Online configurator for vehicle decals

The quickest and simplest way to design your personal vehicle decals.

You want to use your vehicle as a mobile advertising surface and thus generate more awareness for your company, contact potential customers and achieve increased turnover. Professional vehicle decals are the ideal solution. However, historically the option for getting decals on a vehicle has been associated with lots of time and expense.

**mySortimo graphics - the online configurator for vehicle decals by Sortimo - makes designing and ordering of your individual advertising decals simpler than ever before.**

Design your vehicle yourself in just a few steps whenever you want. mySortimo graphics makes it possible in very little time using templates and vehicle-specific editing areas. Prolonged discussions with service providers are a thing of the past and you are completely independent of business hours as it is permanently available.

**Sample price:**  
Volkswagen T6, 3000 mm wheelbase, normal roof  
Films including application on all four sides of the vehicle

All revealed costs in mySortimo graphics are inclusive the application of the foil. The price is set by yourself depending on the layout: Starting with 100€ for small fonts up to 1.000€ for ornate designs with photos and digital printing you can adopt your vehicle decals to your budget.

Quick & simple

- 1 Add your contact data
- 2 Select your colour
- 3 Ready!

Individual & creative

- 1 Choose template
- 2 Edit text
- 3 Edit colours
- 4 Add your own graphics
- 5 Design your views
- 6 Ready!

Vehicle decals entirely in accordance with your wishes

In the mySortimo graphics online configurator, choose either the “quick & simple” or “individual & creative” design options. In the “quick & simple” solution, simply enter your required advertising data and then choose the colour of the film. The text is automatically placed in the optimum position on the vehicle - you just need to place the order. If you want to make the decals even more individual, you can apply the final touches to the design using the diverse functions in the editor. Designing using the editor provides even more possibilities for attractive vehicle design. Create create your preferred personal decals, even without any knowledge of graphics, based on the various different templates and defined editing areas. Intuitive operating elements can be used to edit the text of the decals, shapes and your own graphics can be added, and the colour of the film can be changed. The all-round design can be achieved by simply changing the view from the passenger side to the driver’s side and between the front view and the rear view, letting you design your vehicles to meet your precise requirements.

Compare the design of your decals with your planned budget. The total cost of the vehicle decals with film production and application to your vehicle is available to view at all times using the dynamic price indication in the online configurator. The production of your vehicle decals uses only high-quality films from leading manufacturers with excellent adhesion and outstanding quality. The materials are UV-resistant and weatherproof. Durability is between 5 and 7 years, depending on the effects of weathering and care. The decals can, of course, be removed from the paint on your vehicle without leaving any traces.
